8. Hold Harmless

a. General Hold Harmless

Contractor shall indemnify and save harmless County and its officers, agents, employees, and servants from all claims, suits, or actions of every name, kind, and

description resulting from this Agreement, the performance of any work or services required of Contractor under this Agreement, or payments made pursuant to this Agreement brought for, or on account of, any of the following:

- (A) injuries to or death of any person, including Contractor or its employees/officers/agents;
- (B) damage to any property of any kind whatsoever and to whomsoever belonging;

- (D) any other loss or cost, including but not limited to that caused by the concurrent active or passive negligence of County and/or its officers, agents, employees, or servants. However, Contractor's duty to indemnify and save harmless under this Section shall not apply to injuries or damage for which County has been found in a court of competent jurisdiction to be solely liable by reason of its own negligence or willful misconduct.

The duty of Contractor to indemnify and save harmless as set forth by this Section shall include the duty to defend as set forth in Section 2778 of the California Civil Code.

b. Intellectual Property Indemnification

Contractor hereby certifies that it owns, controls, and/or licenses and retains all right, title, and/or interest in and to any intellectual property it uses in relation to this Agreement, including the design, look, feel, features, source code, content, and/or other technology relating to any part of the services it provides under this Agreement and including all related patents, inventions, trademarks, and copyrights, all applications therefor, and all trade names, service marks, know how, and trade secrets (collectively referred to as "IP Rights") except as otherwise noted by this Agreement.

Contractor warrants that the services it provides under this Agreement do not infringe, violate, trespass, or constitute the unauthorized use or misappropriation of any IP Rights of any third party. Contractor shall defend, indemnify, and hold harmless County from and against all liabilities, costs, damages, losses, and expenses (including reasonable attorney fees) arising out of or related to any claim by a third party that the services provided under this Agreement infringe or violate any third-party's IP Rights provided any such right is enforceable in the United States. Contractor's duty to defend, indemnify, and hold harmless under this Section applies only provided that: (a) County

notifies Contractor promptly in writing of any notice of any such third-party claim; (b) County cooperates with Contractor, at Contractor's expense, in all reasonable respects in connection with the investigation and defense of any such third-party claim; (c) Contractor retains sole control of the defense of any action on any such claim and all negotiations for its settlement or compromise (provided Contractor shall not have the right to settle any criminal action, suit, or proceeding without County's prior written consent, not to be unreasonably withheld, and provided further that any settlement permitted under this Section shall not impose any financial or other obligation on County, impair any right of County, or contain any stipulation, admission, or acknowledgement of wrongdoing on the part of County without County's prior written consent, not to be unreasonably withheld); and (d) should services under this Agreement become, or in Contractor's opinion be likely to become, the subject of such a claim, or in the event such a third party claim or threatened claim causes County's reasonable use of the services under this Agreement to be seriously endangered or disrupted, Contractor shall, at Contractor's option and expense, either: (i) procure for County the right to continue using the services without infringement or (ii) replace or modify the services so that they become non-infringing but remain functionally equivalent.

Notwithstanding anything in this Section to the contrary, Contractor will have no obligation or liability to County under this Section to the extent any otherwise covered claim is based upon: (a) any aspects of the services under this Agreement which have been modified by or for County (other than modification performed by, or at the direction of, Contractor) in such a way as to cause the alleged infringement at issue; and/or (b) any aspects of the services under this Agreement which have been used by County in a manner prohibited by this Agreement.

The duty of Contractor to indemnify and save harmless as set forth by this Section shall include the duty to defend as set forth in Section 2778 of the California Civil Code.

9. Assignability and Subcontracting

Contractor shall not assign this Agreement or any portion of it to a third party or subcontract with a third party to provide services required by Contractor under this Agreement without the prior written consent of County. Any such assignment or subcontract without County's prior written consent shall give County the right to automatically and immediately terminate this Agreement without penalty or advance notice.

10. Insurance

a. General Requirements

Contractor shall not commence work or be required to commence work under this Agreement unless and until all insurance required under this Section has been obtained and such insurance has been approved by County's Risk Management, and Contractor shall use diligence to obtain such insurance and to obtain such approval. Contractor shall furnish County with certificates of insurance evidencing the required coverage, and there shall be a specific contractual liability endorsement extending Contractor's coverage to include the contractual liability assumed by Contractor pursuant to this Agreement. These certificates shall specify or be endorsed to provide that thirty (30) days' notice must be given, in writing, to County of any pending change in the limits of liability or of any cancellation or modification of the policy.

b. Workers' Compensation and Employer's Liability Insurance

c. Liability Insurance

Contractor shall take out and maintain during the term of this Agreement such bodily injury liability and property damage liability insurance as shall protect Contractor and all of its employees/officers/agents while performing work covered by this Agreement from any and all claims for damages for bodily injury, including accidental death, as well as any and all claims for property damage which may arise from Contractor's operations under this Agreement, whether such operations be by Contractor, any subcontractor, anyone directly or indirectly employed by either of them, or an agent of either of them. County and its officers, agents, employees, and servants shall be named as additional insured on any such policies of insurance, which shall also contain a provision that (a) the insurance afforded thereby to County and its officers, agents, employees, and

servants shall be primary insurance to the full limits of liability of the policy and (b) if the County or its officers, agents, employees, and servants have other insurance against the loss covered by such a policy, such other insurance shall be excess insurance only.

In the event of the breach of any provision of this Section, or in the event any notice is received which indicates any required insurance coverage will be diminished or canceled, County, at its option, may, notwithstanding any other provision of this Agreement to the contrary, immediately declare a material breach of this Agreement and suspend all further work and payment pursuant to this Agreement.

11. Compliance With Laws

All services to be performed by Contractor pursuant to this Agreement shall be performed in accordance with all applicable Federal, State, County, and municipal laws, ordinances, and regulations, including but not limited to the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and the Federal Regulations promulgated thereunder, as amended (if applicable), the Business Associate requirements set forth in Attachment H (if attached), the Americans with Disabilities Act of 1990, as amended, and Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability in programs and activities receiving any Federal or County financial assistance. Such services shall also be performed in accordance with all applicable ordinances and regulations, including but not limited to appropriate licensure, certification regulations, provisions pertaining to confidentiality of records, and applicable quality assurance regulations. In the event of a conflict between the terms of this Agreement and any applicable State, Federal, County, or municipal law or regulation, the requirements of the applicable law or regulation will take precedence over the requirements set forth in this Agreement.

I. DESCRIPTION OF SERVICES TO BE PERFORMED BY CONTRACTOR

A. Project SUCCESS

Project SUCCESS (Schools Using Coordinated Community Efforts to Strengthen Students), is a research-based program that builds on the findings of other successful prevention programs by using interventions that are effective in reducing risk factors and enhancing protective measures.

1. Project SUCCESS is considered a SAMHSA model program that prevents and reduces substance use and abuse, and associated behavioral issues among high risk, multi-problem youth ages nine to eighteen (9-18). It works by placing highly trained professionals (Project SUCCESS counselors) in the schools to provide a full range of prevention and early intervention services.
2. The San Mateo County Health System has adopted the Search Institute's 40 Developmental Assets as the framework to use when addressing the needs of young people in the community. This strengths-based model works with youth, their families, schools and community to promote the forty (40) internal and external assets needed to build positive self-esteem, the ability to solve problems and build healthy social relationships. Research has shown that youth with high levels of assets over thirty (30) are more likely to succeed academically, maintain good health, and contribute to their community. They are also less likely to engage in risky behaviors such as fighting in school, truancy, and gang membership.

Contractor shall incorporate the forty (40) Developmental Assets into program treatment goals, individual goals and family goals. This strengths-based model works with youth, their families, school and community to promote the forty (40) internal and external assets needed to build positive self-esteem, the ability to solve problems and build healthy social relationships.

3. Mental Health Services Act (MHSA) programs for children and youth will also reflect the following core values:

- a. Services and supports are individualized, built on strengths, and meet the needs of youth and families across the life domains to promote success, safety, and permanency in home, school, and the community.
 - b. The process is culturally competent, building on the unique values, preferences, and strengths of youth, families, and their communities.
 - c. Family is defined to mean relatives, caregivers, peers, friends, and significant others as determined by the individual client.
4. The ethnic/linguistic populations that are emphasized for program services are those that have experienced the greatest disparities in access and services utilization in San Mateo's Behavioral Health and Recovery Services' (BHRS) system. Services should be linguistically and culturally competent and provided, to a substantial degree, by staff from the same ethnic groups as enrollees. To successfully address the targeted populations, the program must incorporate culturally competent elements such as:
- a. A culturally competent service provider or system acknowledges diversity and recognizes its value, is knowledgeable about cultural differences and can provide high quality services adapted to meet unique cultural needs.
 - b. Outreach and engagement strategies are designed to reach diverse communities of at-risk Asian/Pacific Islander, Latino and African American children to be engaged in services.
 - c. Successful services engage and empower children and their families, maximizing the benefits derived from use of culturally appropriate strategies and supports and thus reduce under-utilization of services that puts the youth at-risk of placement in more restrictive settings, including incarceration. Focusing on consumer-generated goals that are culturally relevant empowers youth and their families to engage in services and maintain that engagement.
 - d. Culturally competent services are sensitive to the client's cultural identity, available in the client's primary language and use the natural supports provided by the client's culture and community.

- e. Goal setting and planning processes are culturally sensitive and build on the youth's and family's cultural community resources and context. Individual, culturally focused community supports are identified and integrated into planning. Service plans reflect and respect the healers and their healing traditions of each youth and family.
- f. Culturally diverse and culturally informed staff incorporate culturally relevant strategies, including the use of families and extended families to provide natural supports. The use of these culturally relevant strategies also builds youth and family commitment to treatment.
- g. Team members are trained in culturally competent practices. Services are delivered by bilingual, culturally competent staff.

5. Service Model

- a. Project SUCCESS is in SAMHSA's National Registry of Evidence-Based Practices. Information on the program can be located at the following web address:
www.nrepp.samhsa.gov/prografulldetails.asp?PROGRAMID=199.
- b. Project SUCCESS counselors use the following intervention strategies: information dissemination, normative and prevention education, problem identification and referral, community based process and environmental approaches. In addition, resistance and social competency skills, such as communication, decision making, stress and anger management, problem solving, and resisting peer pressure are taught.

The counselors primarily work with adolescents individually and in small groups; conduct large group prevention/education discussions and programs; train and consult on prevention issues with school staff; coordinate with the school; refer students and families needing substance abuse treatment or mental health services in the community and provide follow-up. The following four program components are utilized in Project SUCCESS:

- i. The Prevention Education Series – An Alcohol, Tobacco and Other Drug prevention program conducted by the Project SUCCESS Counselor with small groups of students.

- ii. Individual and Group Counseling – Project SUCCESS counselors conduct time-limited group counseling at school for students following participation in the Prevention Education Series; individual assessments and individual sessions are provided as needed. There are seven different counseling groups for students to participate in.
 - iii. Parent Programs – Project SUCCESS includes parents as collaborative partners in prevention through parent education programs.
 - iv. Referral - Students and parents who require treatment, more intensive counseling, or other services are referred to appropriate agencies or practitioners in the community by their Project SUCCESS counselors.
- 6. The program will operate under policies and procedures that ensure:
 - a. Collaboration with all systems of care staff involved with the children and families (e.g., Behavioral Health and Recovery Services, Health Insurance, Child Welfare, Juvenile Justice, and/or Education).
 - b. There is support for parents when they have their own mental health or substance abuse needs. The program will facilitate access to services, interfacing with adult Mental Health (MH) or AOD services when family members meet MH and/or AOD criteria or referring them to primary care or community resources.

B. “Seeking Safety” for Transition Age Youth (TAY)

Seeking Safety is an approach to help people attain safety from trauma/PTSD (Post Traumatic Stress Disorder) and substance abuse. Seeking Safety is a manualized intervention (also available in Spanish), providing both client handouts and guidance for clinicians. Services are conducted in a group and/or individual format; with diverse populations; for women, men, and mixed and according to assessed need; in a variety of settings; and for both PTSD and substance abuse/dependence. It may also be used with people who have a trauma history, but do not meet criteria for PTSD.

- 1. Seeking Safety provides services for transition age youth (TAY), in a non-traditional behavioral health setting. Services will include

population and group based interventions to at-risk youth ages eighteen (18) to twenty-five (25).

2. The key principles of Seeking Safety are:
 - a. Safety as the overarching goal (helping clients attain safety in their relationships, thinking, behavior, and emotions);
 - b. Integrated treatment (working on both PTSD and substance abuse at the same time);
 - c. A focus on ideals to counteract the loss of ideals in both PTSD and substance abuse;
 - d. Four content areas: cognitive, behavioral, interpersonal, case management; and
 - e. Attention to clinician processes (helping clinicians work on counter-transference, self-care, and other issues).
3. Contractor shall collaborate with all systems of care staff involved with the youth and family (e.g., Behavioral Health and Recovery Services, Health Insurance, Child Welfare, Juvenile Justice, and/or Education).
4. Contractor shall coordinate with primary care physician.
5. Contractor shall facilitate access for parents in need of mental health or substance abuse support to services, interfacing with adult mental health or alcohol and other drug services when family members meet mental health and/or alcohol and other drug criteria or referring them to primary care or community resources.
6. These services will be targeted toward Transition Age Youth through their contacts with community based organizations.
7. Staff shall be trained in the Seeking Safety model and deliver services with fidelity, consistent with the model.
8. Population to be Served

The program will be open to all at-risk youth being served in community-based sites selected as service locations. However, it is targeted to Asian/Pacific Islander, Latino and African American youth who experience or have experienced trauma.

C. Monthly Reporting and Documentation:

1. Contractor shall administer/utilize any and all survey instruments as directed by BHRS, including but not limited to the following outcomes and satisfaction measurement instruments. Contractor shall measure outcomes by:
 - a. choosing one of the following: a survey instrument as agreed upon by BHRS, satisfaction survey for students, staff and/or parents, focus groups for students, staff and/or parents
 - b. measuring a school success outcome at minimum at the beginning and at the end of the year (e.g. class room behavior rating, number of disciplinary actions, class room participation/engagement); this measure will be chosen in collaboration with the school based on data routinely collected by the school at regular intervals.
2. Contractor shall collect and report on documentation of services and activities, including but not limited to the following:
 - a. Submit quarterly narrative and demographics reports in a format provided by BHRS.
 - b. Identify if intervention was with: student, parent, school staff, or all three (3), and for each intervention:
 - i. number of minutes each time seen,
 - ii. type of service provided:
 - 1) normative and prevention education,
 - 2) problem identification and referral (assessment),
 - 3) community-based process
 - 4) environmental approach
 - iii. content of intervention: resistance and social competency skills, such as communication, decision making, stress and anger management, problem solving, and resisting peer pressure

The Quality Improvement Plan should address 1) how the Contractor will comply with all elements of this Agreement, 2) the Contractor will maintain an audit disallowance rate of less than five percent (5%), and 3) first appointment will be within fourteen (14) days of referral or request of service.
