DEPARTMENT UPDATE
San Mateo County Parks Commission
August 7, 2025

Visitor Experience

Visitor Data

A summary of all visitor count data for January to June 2025 is included in Attachment 1. In the first six months of 2025, the San Mateo County Parks Department served approximately 1,563,860 visitors. For comparison, approximately 1,367,953 people visited parks in the first 6 months of 2024. This is an increase of nearly 200,000 visitors. Data is missing from Flood Park due to construction, but counters will be added in the coming months. On par with long-term visitation data, the most visited parks in the system include Crystal Springs Regional Trail (320,166 visitors), Coyote Point Recreation Area (312,638 visitors), San Pedro Valley County Park (148,288 visitors), and Fitzgerald Marine Reserve (136,336 visitors). Edgewood Park welcomed 124,848 visitors in the first 6 months, likely due to spring wildflower blooms.

Interpretive Events

From February to June 2025, the Interpretive Division hosted or participated in 83 programs, serving approximately 4319 people. Programs included virtual classroom lessons, resource booth tabling, and field trips to parks with community organizations and schools. A new after-school program was introduced, offering 6 nature-based lessons with hands-on activities and is offered at community centers and libraries. This summer, 2 Junior Naturalist Day Camps at Fitzgerald Marine Reserve and 5 Youth Camping Weekends at Memorial Park are being offered to local community organizations; the first of both were offered in June. The details of interpretive programs are included in this report as Attachment 2.

In June, an updated Junior Ranger program was launched. Junior Ranger booklets were created for the five parks with visitor centers: Memorial Park, Wunderlich Park, Fitzgerald Marine Reserve, San Pedro Valley Park, and Edgewood Park. Upon completion of each booklet, Junior Rangers receive a custom wooden pin, and if all 5 parks are completed, they get a gold Junior Ranger badge. Summerfest was held on July 26 at Coyote Point, with approximately 3000 visitors attending. This annual community celebration included giant kite flying, free train rides, and community resource booths.

Volunteer Events

From January to June 2025, the Volunteer Program hosted 81 volunteer events throughout the parks system. Events included various weeding events for invasive species control and habitat restoration, construction of bird boxes, as well as trail restoration and rehabilitation projects. These events totaled 5105 hours of volunteer effort supporting and improving the parks. The details of each event are included in this report as Attachment 3.

Facilities and infrastructure

Don Horsley County Park at Tunitas Creek Beach

Completion of Don Horsley County Park at Tunitas Creek Beach is delayed due to landslides near the beach emergency access route. This must be remediated before the park

can safely open. As a result, the new expected opening is anticipated for summer 2026. Work continues in areas not impacted by the slides. Significant progress has been made with visitor facilities, including the ranger station, restroom, amphitheater, park kiosk and signs, and an ADA-accessible path to the mid-bluff area.

Realize Flood Park

The small multi-use sports field, tennis/pickleball courts, basketball court, sand volleyball court, picnic areas, and walking paths were completed. On June 7, celebrations were held for the opening of Phase 1 of the Realize Flood Park Project, as well as the groundbreaking for the Park's new playground. Construction is expected to be completed in spring of 2026.

San Bruno Mountain Day Use Improvement Project

Following a groundbreaking ceremony on May 30, construction of the new day use area restroom and open-air interpretive pavilion has begun. During construction, visitors have access to some drop-in picnic tables, but the rest of the area is closed, including the restrooms. Portable toilets are located near the parking area. It is anticipated that the project will be completed in late fall 2025.

Revitalize Magic Mountain Playground at Coyote Point

A survey was developed to learn what playground improvements park users would like to see installed. The survey was available both online and on paper, in both English and Spanish. 466 surveys were collected over a three-week period. Results of the survey can be viewed following this update.

Natural Resource Management

Wildfire Mitigation Projects

The Natural Resource Management Division has been overseeing and planning five wildfire mitigation projects to reduce fire fuels in various county parks. At Quarry County Park, work was completed to chip and spread stacked logs that had been left over from prior storms and fuel reduction project. At Wunderlich County Park, fuel reduction along the park boundary adjacent to Bear Gulch Road has been underway, and at San Pedro Valley goat grazing has helped manage vegetation regrowth within an established shaded fuel break area. Planning efforts to implement shaded fuel breaks at San Bruno Mountain State and County Park and Junipero Serra County Park are also underway.

Forest Health and Fuel Reduction at Pescadero Creek County Park

In addition to the above projects, a large-scale forest health and fuel reduction project at Pescadero Creek County Park has been planned, and work is anticipated to begin in early September. The project entails 541 acres of understory vegetation thinning through mastication, with a 110 acre area where selective thinning of an overly dense second growth redwood and Douglas fir stand will occur.
