Notwithstanding anything in this Section to the contrary, Contractor will have no obligation or liability to County under this Section to the extent any otherwise covered claim is based upon: (a) any aspects of the services under this Agreement which have been modified by or for County (other than modification performed by, or at the direction of, Contractor) in such a way as to cause the alleged infringement at issue; and/or (b) any aspects of the services under this Agreement which have been used by County in a manner prohibited by this Agreement.

The duty of Contractor to indemnify and save harmless as set forth by this Section shall include the duty to defend as set forth in Section 2778 of the California Civil Code.

Contractor shall not assign this Agreement or any portion of it to a third party or subcontract with a third party to provide services required by Contractor under this Agreement without the prior written consent of County. Any party to this Agreement may revoke such agreement to permit electronic signatures at any time in relation to all future documents by providing notice pursuant to this Agreement.

## **21. Payment of Permits/Licenses**

Contractor bears responsibility to obtain any license, permit, or approval required from any agency for work/services to be performed under this Agreement at Contractor's own expense prior to commencement of said work/services. Failure to do so will result in forfeit of any right to compensation under this Agreement.

## **22. Reimbursable Travel Expenses**

To the extent that this Agreement authorizes reimbursements to Contractor for travel, lodging, and other related expenses as defined in this section, the Contractor must comply with all the terms of this section in order to be reimbursed for travel. Travel Expense must be invoiced separately from normal services and include the approved written Travel Authorized for expenses invoiced.

- A. Estimated travel expenses must be submitted, and a Travel Authorization form must be signed before such expenses are incurred. Significant differences between estimated and actual travel expenses may be grounds for denial of full reimbursement of actual travel expenses.
- B. Itemized receipts (copies accepted) for all reimbursable travel expenses are required to be provided as supporting documentation with all invoices submitted to the County.
- C. Unless otherwise specified in this section, the County will reimburse Contractor for reimbursable travel expenses for days when services were provided to the County. Contractor must substantiate in writing to the County the actual services rendered and the specific dates. The County will reimburse for travel at 75% of the maximum reimbursement amount for the actual costs of meals and incidental expenses on the day preceding and/or the day following days when services were provided to the County, provided that such reimbursement is reasonable, in light of travel time and other relevant factors, and is approved in writing by authorized County personnel.
- D. Unless otherwise specified within the contract, reimbursable travel expenses shall not include Local Travel. "Local Travel" means travel entirely within a fifty-mile radius of the Contractor's office and travel entirely within a fifty-mile radius of San Mateo County. Any mileage reimbursements for a Contractor's use of a personal car for reimbursable travel shall be reimbursed based on the Federal mileage reimbursement rate.
- E. The maximum reimbursement amount for the actual lodging, meal and incidental expenses is limited to the then-current Continental United States ("CONUS") rate for the location of the work being done (i.e., Redwood City for work done in Redwood City, San Mateo for work done at San Mateo Medical Center) as set forth in the Code of Federal Regulations and as listed by the website of the U.S. General Services Administration (available online at <http://www.gsa.gov/portal/content/104877> or by searching [www.gsa.gov](http://www.gsa.gov) for the term 'CONUS'). County policy limits the reimbursement of lodging in designated high cost of living metropolitan areas to a maximum of double the then-

current CONUS rate; for work being done outside of a designated high cost of living metropolitan area, the maximum reimbursement amount for lodging is the then-current CONUS rate. Meal reimbursement amount is limited to separate amounts for each meal expenses (Breakfast, Lunch, and Dinner) plus an incidental amount. The County does not use the standard "per diem reimbursement" for meals by the day.

- F. The maximum reimbursement amount for the actual cost of airfare shall be limited to fares for Economy Class or below. Air travel fares will not be reimbursed for first class, business class, "economy-plus," or other such classes. Reimbursable car rental rates are restricted to the mid-level size range or below (i.e. standard size, intermediate, compact, or subcompact); costs for specialty, luxury, premium, SUV, or similar category vehicles are not reimbursable. Reimbursable ride-shares are restricted to standard or basic size vehicles (i.e., non-premium vehicles unless it results in a cost-saving to the County). Exceptions may be allowed under certain circumstances, such as unavailability of the foregoing options, with written approval from authorized County personnel. Other related travel expenses such as taxi fares, ride-shares, parking costs, train or subway costs, etc. shall be reimbursable on an actual-cost basis. Reimbursement of tips for taxi fare, or ride-share are limited to no more than 15% of the fare amount.
- G. Travel-related expenses are limited to: airfare, lodging, car rental, taxi/ride-share plus tips, tolls, incidentals (e.g. porters, baggage carriers or hotel staff), breakfast, lunch, dinner, mileage reimbursement based on Federal reimbursement rate. The County will not reimburse for alcohol or purchases at a department store or grocery stores for any expenses.
- H. Reimbursement of tips are limited to no more than 15 percent. Non-reimbursement items (i.e., alcohol) shall be excluded when calculating the amount of the tip that is reimbursable.

## **23. Change Management**

Either party may request a modification to this Agreement by submitting a written Change Request for review and approval. All changes, including amendments to terms, scope of services, or financial obligations, must be documented in writing through an official Amendment. Verbal or informal modifications are not valid or enforceable.

A Change Request must clearly outline the proposed modification, the reason for the change, and any potential impact. The receiving party shall review the request in good faith and respond within a reasonable timeframe.

If specified in the Board Resolution for this Agreement, the Chief of San Mateo County Health, or their designee, is authorized to approve contract amendments that adjust the County's maximum fiscal obligation by up to \$25,000 in aggregate and/or modify the contract term or scope of services, provided such changes remain within the current or revised fiscal provisions. Change requests above the authorized limit will require a Board Amendment.

## **24. Prevailing Wage**

When applicable, Contractor hereby agrees to pay not less than prevailing rates of wages and be responsible for compliance with all the provisions of the California Labor Code, Article 2- Wages, Chapter 1, Part 7, Division 2, Section 1770 et seq. A copy of the prevailing wage scale established by the Department of Industrial Relations is on file in the office of the Director of

Public Works, and available at [www.dir.ca.gov/DLSR](http://www.dir.ca.gov/DLSR) or by phone at 415-703-4774. ## **25. Cloud Computing Policy 2020**

### **25.1. Overview**

Cloud computing is defined as on-demand delivery of information technology (IT) resources through the Internet. Such services use a pool of shared resources to achieve economies of scale, provide greater flexibility, and support communication, collaboration, scheduling, sharing, and storage. In most cases, these services are provided on a contractual basis by a third-party vendor and essentially becomes an extension of the County's network. Security concerns in cloud computing include, but are not limited to:

- Loss of control over the maintenance and protection of the data
- Potential loss of privacy due to aggregation of data from other cloud consumers
- Reliance on vendor's services for the security of County data

### **25.2. Policy Purpose**

The purpose of the Cloud Computing Policy is to safeguard the County's data and to mitigate any risks associated with utilizing cloud solutions. This policy outlines best practices to ensure that data will be properly stored and shared when using cloud computing services.

### **25.3. Scope**

The scope of this policy includes all users of the County of San Mateo's network who uses cloud computing services, including vendors, contractors, volunteers, temporary staff, consultants, collectively known as Workforce Members, and any other party who provides services or works on the computer and/or network systems.

### **25.4. Policy**

All cloud computing services shall undergo a security assessment, performed at the time of contract, including but not limited to: security controls, identity and authentication management, password management, auditing, and encryption capabilities. As part of the review process, all cloud services that are currently listed in the Federal Risk Authorization Management Program (FedRAMP) will undergo an abbreviated security review process. Cloud services that are not

“FedRAMPed” will undergo a more in-depth security review process. Any cloud service’s security level and trustworthiness must match the sensitivity of the data stored on that service. If there are circumstances that fall outside the ability to comply with and/or conform to County policies, an exception waiver may be required.

All cloud computing services must be reviewed and approved by the Chief Information Officer (CIO) or designee before purchase or deployment, including renewals. The CIO or designee has the right to deny the request and shall provide the reason(s) for doing so as well as alternatives so that a mutually agreeable solution can be developed.

The use of cloud computing services shall comply with all current laws and regulations as well as all County policies. All software stored in the cloud must comply with licensing agreements and copyright laws. Additionally, all internet domains (URLs) associated with County business shall be managed and registered through ISD.

#### 25.5. Software as a Service

Software as a Service (SaaS) solutions must utilize latest version of Security Assertion Markup Language (SAML) authentication (WS-Federation and Okta’s Secure Web Authentication (SWA) may be used in lieu of SAML) and integrate with the County’s identity provider (currently Okta). Multi-factor authentication is required when the application is accessed from outside of the County’s network. If solutions do not utilize SAML authentication or multi-factor authentication, a request for exception, signed by the Department Head, must be submitted to the CIO or designee, for approval. Note: The security assessment may result in a request for exception based on the results of the review and is not limited to the above-mentioned authentication processes.

The cloud environment shall also include a County-approved warning banner upon logon, if capable.

All software must be configured to have a lock-out session after fifteen (15) minutes of idle time. Full auditing, in coordination with ISD, must be enabled to allow for successful and unsuccessful account logon events, account management events, and system events. Audit logs, if performed by another organization, shall be shared with the County upon request or as stated in the underlying agreement. All audit logs must be stored for a minimum of one year.

Contingency plans for disaster recovery must be provided by the vendor in all SaaS solutions including a strategy to restore the data within a specified time frame.

Both vendor and County roles and responsibilities shall be clearly stated including enforcement mechanisms to meet the required service levels. All parties must also comply with Administrative Memorandum B-1.

The terms and conditions of termination shall be clearly defined along with the disposal and/or transfer of data.

#### 25.6. Self-Provisioning Cloud Services

Self-provisioning cloud services, used to share, store, and/or manage data, present significant data management risks including compromised data, sudden loss of data or service, and changes to the terms of service without notice. Users of self-provisioning cloud services sign up for services through an end-user license at no monetary cost. These cloud computing services, including but not limited to Google Docs and DropBox may not be used for the storage, manipulation, or exchange of County-related data. Furthermore, cloud services shall not be

used to store, process, share, or manage any data deemed to be sensitive or confidential, such as data related to the Health Insurance Portability and Accountability Act (HIPAA) or Personally Identifiable Information (PII) at any time.

#### 25.7. Confidential Data

Cloud systems are subject to the same internal standards as those located on-premises. Confidential data may only be stored and managed through a secure vendor that has been approved by ISD as appropriate for confidential data.

All vendors shall comply with all County specified standards and requirements in addition to federal and state mandated standards, such as HIPAA. Compliance shall be detailed within the business case for each application. Vendors must provide information regarding the controls they employ to maintain security on all HIPAA and PII data. The following list includes security concerns that will be evaluated in the security review process. Note that an exception waiver may be required in the event that the listed County requirements are not met.

- How and where vendor encrypts data, both at rest and in motion
- How vendor employees who will have physical access to the network and infrastructure that hosts the application, are vetted
- What third-party audits will be/have been performed to validate vendor controls • What security features are and are not included as part of their SLA
- What constitutes a security event and what their notification policies and procedures are after a security event occurs
- If the backups of the County's data are moved offsite, how are they encrypted • How will data be securely deleted or destroyed as requested
- The vendor's ability to provide patches and update products, including the patch schedules and timeline for end-of-device support
- Assurance that the sharing of the County provided account password will be strictly prohibited

Client data from the cloud may not be transmitted to a personal computing device (such as a flash/thumb drive).

#### 25.8. Other County Policies

The County has other policies that address specific areas of information security including policies on IT security, Internet use, email, mobile technology use, vendor/contractor access, and portable computing. These policies are also applicable and extend to cloud services including the use and storage of information. Departments may have internal policies that also address these issues. These policies are cumulative and in the event of conflict, the policies providing the County with the greatest level of security shall apply.

#### 25.9. Responsibility

Departments shall be responsible for providing security awareness and training to all users of devices or electronic media containing Personal Health Information (PHI) or PII as it relates to

the HIPAA requirements for all data under their control. ISD will be responsible for providing Countywide security awareness and training

**25.10. Policy Enforcement**

The CIO or designee is the policy administrator for information technology resources and will ensure that this process is followed. Additionally, Division Directors, managers, and Department Heads are responsible for compliance with County policies within their respective administrative areas.

Any violations of this policy shall be reported to the CIO or designee. Violations will be investigated and may result in disciplinary action up to and including dismissal from County employment. For violations of patient confidentiality, the procedures of the Patient Confidentiality Sanctions Policy as regulated by HIPAA will apply. Vendors who violate this policy may be subject to contract termination, denial of service, and/or legal penalties, both criminal and civil.

Contractor shall cooperate with County and County's other contractors to ensure a smooth transition at the time of termination of this Agreement, regardless of the nature or timing of the termination. Contractor shall cooperate with County's efforts to effectuate such transition with the goal of minimizing or eliminating any interruption of work required under the Agreement and any adverse impact on the provision of services or the County's activities; provided, however, that County shall pay Contractor on a time and materials basis, at the then-applicable rates, for all additional services performed in connection with such cooperation. Contractor shall deliver to County or its designee, at County's request, all documentation and data related to County, including, but not limited to, patient files, held by Contractor, and after return of same, Contractor shall destroy all copies thereof still in Contractor's possession, at no charge to County. Such data delivery shall be in an electronic format to facilitate archiving or loading into a replacement application. County and Contractor shall mutually agree to the specific electronic format.

Upon any termination of the Agreement, regardless of the nature or timing of the termination, County shall have the right, for up to twelve (12) months (the "Transition Period"), at County's option and request, to continue to receive from Contractor all maintenance and support services, at the then-applicable rates provided, however, that the annual support and maintenance fee shall be prorated and paid in advance on a monthly basis during such time, and the amount of such support and maintenance fee shall remain subject to the limitations set forth in the Agreement regarding any increase in such fee.

### **Assumptions**

- The proposed rates are inclusive of consultants who possess a minimum of five years of experience.
- The above hourly rates are for professional services only and are not inclusive of travel, except where noted.
- The proposed hourly rates also assume all consultants will be onshore resources.
- Hourly rates are for regular hours only. If overtime is requested and approved for non-exempt employees, the hourly rate will increase accordingly.
  - Note that CTG complies with all federal and state wage and hour requirements regulating non-exempt overtime compensation. Employees who are non-exempt under the Fair Labor Standards Act (FLSA) are eligible to receive overtime compensation at time and a half for all hours worked in excess of 40 hours per week and, in some states, eight hours per day. CTG recognizes that on occasion County may request a nonexempt employee on a billable assignment to work in excess of 40 hours per week. Please be aware that any hours over 40 must be pre-approved in writing (e-mail acceptable) from SMC and these hours will be invoiced in compliance with all federal/state laws.
- Legacy System Support rates are for budgetary purposes and will be refined based on the actual applications defined as part of the scope of the engagement.
- CTG has provided the above estimated “Inclusive Rates” for all Activation roles that are:
  - Inclusive of labor cost, lodging, travel, ground transportation, meals and incidentals.
  - Based on the AMB support site information provided by San Mateo on September 24, 2025, including number of support locations, physical address, and hours of operation; as the sample resource plan by type provided on September 26, 2025
  - Assuming a minimum of 60 hours per week for management roles during go-live, a minimum of 40 hours per week for AMB ATEs and Physician Staff, and a minimum of 72 hours per week for IP ATEs. Go-Live Project Director will convert to an Inclusive Rate the week before go-live.

- Assuming a support model for each go-live that provides 3 weeks of go-live support, plus training time. Support is estimated to taper to 70% after Week 1 and 35% after Week 2.
- Inclusive Rate for Credentialed Trainers assumes onsite end user training delivery for approximately three weeks and onsite Go-Live support for three weeks, as per County on September 30, 2025. For estimating purposes, CTG is used a minimum of 50 hours a week for this time period. Inclusive rate will adjust based on final training support schedule. County Credentialing will be conducted remotely prior to end user training.
- San Mateo has agreed to provide CTG the opportunity to reassess the inclusive bill rates once the actual Go-Live date(s) are confirmed. CTG will leverage their nationwide relationships to get the best rates for the San Mateo project, which could potentially reduce inclusive rates.
- Inclusive Rates do not include one-time costs for items such as meeting rooms, AV equipment, catering, etc., that may be required to conduct Project Orientation and San Mateo ATE training immediately prior to Go-Live. These costs will be billed separately.
