THE SIGNIFICANT TREE ORDINANCE OF SAN MATEO COUNTY (Part Three of Division VIII of the San Mateo County Ordinance Code)

CHAPTER 1. FINDINGS, INTENT, AND PURPOSE

SECTION 12.000. FINDINGS. The Board of Supervisors finds and declares that the existing and future trees and tree communities located within the County of San Mateo are a valuable and distinctive natural resource. The trees and tree communities of the County augment the economic base through provision of resources for forest products, encouragement of tourism, and enhancement of the living environment. These resources are a major component of both the highly-localized and area-wide environment. The following environmental consequences are among those which could result from the indiscriminate removal or destruction of trees and tree communities in San Mateo County:

- (a) Modification of microclimates.
- (b) Change or elimination of animal habitat, possibly including habitats of endangered species.
- (c) Change in soil conditions, resulting in modified biological activity and erosion of soils.
- (d) Creation of increased susceptibility of flood hazards.
