9. Third Party Beneficiaries

This Agreement is entered into for the sole benefit of County and Contractor. Nothing contained herein or in the parties' course of dealings shall be construed as conferring any third-party beneficiary status on any person or entity not a party to this Agreement, including, without limitation, any Contractor representative or Provider.

10. Hold Harmless

a. General Hold Harmless

Contractor shall indemnify and save harmless County and its officers, agents, employees, and servants from all claims, suits, or actions of every name, kind, and description resulting from this Agreement, the performance of any work or services required of Contractor under this Agreement, or payments made pursuant to this Agreement brought for, or on account of, any of the following:

b. Intellectual Property Indemnification

Contractor hereby certifies that it owns, controls, and/or licenses and retains all right, title, and/or interest in and to any intellectual property it uses in relation to this Agreement, including the design, look, feel, features, source code, content, and/or other technology relating to any part of the services it provides under this Agreement and including all related patents, inventions, trademarks, and copyrights, all applications therefor, and all trade names, service marks, know how, and trade secrets (collectively referred to as "IP Rights") except as otherwise noted by this Agreement.

Contractor warrants that the services it provides under this Agreement do not infringe, violate, trespass, or constitute the unauthorized use or misappropriation of any IP Rights of any third party. Contractor shall defend, indemnify, and hold harmless County from and against all liabilities, costs, damages, losses, and expenses (including reasonable attorney fees) arising out of or related to any claim by a third party that the services provided under this Agreement infringe or violate any third-party's IP Rights provided any such right is enforceable in the United States. Contractor's duty to defend, indemnify, and hold harmless under this Section applies only provided that: (a) County notifies Contractor promptly in writing of any notice of any such third-party claim; (b) County cooperates with Contractor, at Contractor's expense, in all reasonable respects in connection with the investigation and defense of any such third-party claim; (c) Contractor retains sole control of the defense of any action on any such claim and all negotiations for its settlement or compromise (provided Contractor shall not have the right to settle any criminal action, suit, or proceeding without County's prior written consent, not to be unreasonably withheld, and provided further that any settlement permitted under this Section shall not impose any financial or other obligation on County, impair any right of County, or contain any stipulation, admission, or acknowledgement of wrongdoing on the part of County without County's prior written consent, not to be unreasonably withheld); and (d) should services under this Agreement become, or in Contractor's opinion be likely to become, the subject of such a claim, or in the event such a third party claim or threatened claim causes County's reasonable use of the services under this Agreement to be seriously endangered or

disrupted, Contractor shall, at Contractor's option and expense, either: (i) procure for County the right to continue using the services without infringement or (ii) replace or modify the services so that they become non-infringing but remain functionally equivalent.

Notwithstanding anything in this Section to the contrary, Contractor will have no obligation or liability to County under this Section to the extent any otherwise covered claim is based upon: (a) any aspects of the services under this Agreement which have been modified by or for County (other than modification performed by, or at the direction of, Contractor) in such a way as to cause the alleged infringement at issue; and/or (b) any aspects of the services under this Agreement which have been used by County in a manner prohibited by this Agreement.

The duty of Contractor to indemnify and save harmless as set forth by this Section shall include the duty to defend as set forth in Section 2778 of the California Civil Code.

11. Assignability and Subcontracting

Contractor shall not assign this Agreement or any portion of it to a third party or subcontract with a third party to provide services required by Contractor under this Agreement without the prior written consent of County. Any such assignment or subcontract without County's prior written consent shall give County the right to automatically and immediately terminate this Agreement without penalty or advance notice.

12. Insurance

c. Liability Insurance

Contractor shall take out and maintain during the term of this Agreement such bodily injury liability and property damage liability insurance as shall protect Contractor and all of its employees/officers/agents while performing work covered by this Agreement from any and all claims for damages for bodily injury, including accidental death, as well as any and all claims for property damage which may arise from Contractor's operations under this Agreement, whether such operations be by Contractor, any subcontractor, anyone directly or indirectly employed by either of them, or an agent of either of them. Such insurance shall be combined single limit bodily injury and property damage for each occurrence and shall not be less than the amounts specified below:

- (a) Comprehensive General Liability... \$1,000,000
- (b) Motor Vehicle Liability Insurance... \$1,000,000
- (c) Professional Liability..... \$1,000,000

County and its officers, agents, employees, and servants shall be named as additional insured on any such policies of insurance, which shall also contain a provision that (a) the insurance afforded thereby to County and its officers, agents, employees, and servants shall be primary insurance to the full limits of liability of the policy and (b) if the County or its officers, agents, employees, and servants have other insurance against the loss covered by such a policy, such other insurance shall be excess insurance only.

In the event of the breach of any provision of this Section, or in the event any notice is received which indicates any required insurance coverage will be diminished or canceled, County, at its option, may, notwithstanding any other provision of this Agreement to the contrary, immediately declare a material breach of this Agreement and suspend all further work and payment pursuant to this Agreement.

13. Compliance With Laws

All services to be performed by Contractor pursuant to this Agreement shall be performed in accordance with all applicable Federal, State, County, and municipal laws, ordinances, regulations, and executive orders including but not limited to the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and the Federal Regulations promulgated thereunder, as amended (if applicable), the Business Associate requirements set forth in Attachment H (if attached), the Americans with Disabilities Act of 1990, as amended, and Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability in programs and activities receiving any Federal or County financial assistance. In the event of a conflict between the terms of this Agreement and any applicable State, Federal, County, or municipal law or regulation, the requirements of the applicable law or regulation will take precedence over the requirements set forth in this Agreement.

Further, Contractor certifies that it and all of its subcontractors will adhere to all applicable provisions of Chapter 4.106 of the San Mateo County Ordinance Code, which regulates the use of disposable food service ware. EXHIBIT A – SERVICES
TELECARE CORPORATION
AOT FSP
FY 2024 – 2026

In consideration of the payments set forth in Exhibit B, Contractor shall provide the following services:

I. DESCRIPTION OF SERVICES TO BE PERFORMED BY CONTRACTOR

Assisted Outpatient Treatment Full-Service Partnership

Assisted Outpatient Treatment Full-Service Partnership (AOT FSP) provides services to individuals with serious mental illness who currently are not receiving treatment and may or may not require court intervention to receive treatment. AOT FSP services are based on the Assertive Community Treatment model (ACT). Contractor shall provide full service partnership (“Full Service Partnership” or “FSP”) mental health service programs for the highest risk adults in San Mateo County and housing services for these FSP enrollees. The purpose of these programs is to assist consumer/members to enroll and once enrolled, to achieve independence, stability and wellness within the context of their cultures, and communities. Contractor shall work with San Mateo County Behavioral Health & Recovery Services (BHRS) staff (“County”) to implement these services in accordance with requirements of the California Mental Health Services Act (MHSA) requirements.

Scope of Work

- A. AOT provides for adult San Mateo County residents living with serious mental illness who meet the eligibility criteria listed below as specified in Assembly Bill 1421:
1. Unable to “survive safely” in the community without “supervision;”
 2. History of “lack of compliance with treatment” as evidenced by at least one of the following:
 - a. Hospitalized/or treatment in a correctional facility two or more times in the last thirty-six (36) months due to a mental illness; or
 - b. Violent behavior towards self or others in the last 48 months.
 3. Previously offered treatment on a voluntary basis and refused it; and
 4. Is “deteriorating.”

B. Assisted Outpatient Treatment Full Service Partnership Scope of Service

1. Program Goals

- a. Engage individuals who have not had a successful and lasting connection to treatment and recovery services.
- b. Divert from the criminal justice system and/or acute and long term institutional levels of care (locked facilities) SMI and complex individuals with multiple co-morbid conditions that can succeed in the community with sufficient structure and support.
- c. Offer “whatever it takes” to engage complex adults and older adults with SMI in a partnership to achieve their individual wellness and recovery goals, using alternative models of care which offer greater benefits to them, increasing the likelihood that they will experience positive outcomes.
- d. Maximize use of community resources as opposed to costly crisis, emergency, and institutional care.
- e. Use strategies relating to housing, employment, education, recreation, peer support and self-help that will engender increased collaboration with those systems and sectors.

2. Target Population

The program will be open to adults meeting the population criteria described in section A, however special consideration is directed towards historically underserved populations including but not limited to Asian/Pacific Islander, Latino and African American populations. Both Medi-Cal and non Medi-Cal eligible consumers will be offered the opportunity to participate.

Most of the adults with seriously mentally ill (SMI), served by the FSP will have histories of hospitalization, institutionalization, substance use, not engaged in medication treatment, and difficulty in participating in structured activities and living independently. Some individuals may have histories of assaultive behavior. It is possible that many consumers will have resided in long term care facilities for extended periods. For some of these individuals, patterns of service have relied almost exclusively on emergency and institutional care. Others have bounced in and out of every type of service without improved outcomes.

Older adults with SMI will likely have cognitive difficulties and medical comorbidities. Some SMI adults and older adults will be medically fragile. This group of consumers may have resided in long term care facilities for extended periods or be at risk of placement. The program will serve as a step-down program for acute care, locked placements, and skilled nursing facilities in order to avoid prolonged institutional placements that often hasten the loss of an individual's sense of wellness, independence, and overall quality of life.

Populations to be served by the program are:

1. Individuals whose SMI and the complex nature of their diagnoses and medical or other concerns result in frequent emergency room visits, hospitalizations, and homelessness that puts them at risk of criminal justice or institutional placement.
2. Adults with SMI, and possibly substance use issues and current incarceration, and for whom early discharge planning and post-release partnership structure and support may prevent recidivism and/or re-hospitalization.
3. Adults with SMI, often co-occurring substance use, who have not had success or lasting connection to treatment and recovery services, Adults with SMI who are medically fragile and may have additional complex issues including: are at risk of institutionalization or currently institutionalized; and who, with more intensive supports, could live in a community setting.

3. Values and Principle

1. Service Values

- a. Community-based services are those that foster the greatest independence in the least restrictive, most accessible, familiar setting. Community-based services are also those which are offered to consumers where they live, work, or recreate.
- b. Consumer participation is voluntary. This does not preclude intensive outreach to potential consumers
- c. Services are to be recovery based and guided by an individualized plan developed between consumer and staff and signed off by the consumer. Staff will employ a variety of

supportive and recovery techniques to encourage consumers to assume responsibility for their own wellness and recovery.

- d. Services will integrate consumer's family members or other supportive people into treatment whenever possible via consumer consent. Consumers will be given ongoing opportunities to choose what family members or other supportive people, if any, they would like to be involved.
- e. Advisory Board: Consumers will be encouraged to have an active role in making decisions about program operations through an advisory board or similar structure. Substantive changes in program structure and service operations will be communicated back to consumers via the governing board or other communication method.
- f. Lived Experience: Consumers are actively recruited for staff positions so as to incorporate the consumer perspective throughout the agency.
- g. Consumers are provided self-help and peer support opportunities.

2. Operational principles and practices

This program is grounded in research and evaluation findings of California's Mentally Ill Criminally Ill Crime Reduction (MIOCR) program and national effectiveness research through the federal GAINS/TAPA Center. These demonstrate that diversion and post incarceration services reduce incarceration, jail time and re-offense rates for offenders whose untreated mental illness has been a factor in their criminal behaviors.

Research has also demonstrated that the models using team-based services have been effective in reducing hospitalization and costs. The following are key elements of that model:

- a. High staffing ratio of staff to consumers; research shows that programs are most effective with a ratio of one to ten or fewer.
- b. Team staff all work with and share responsibility for each consumer.
- c. There are frequent team meetings to discuss all team consumers.
- d. There is contact each week between staff and each consumer.

- e. A psychiatrist is assigned to each team and participates in team discussions and decisions as well as prescribing medication.
- f. A licensed professional who can administer medications in the field is assigned (at least part time) to each team in the field.
- g. There is full continuity of care including medication access at any time, and staff involvement with all stages of hospitalization.
- h. Comprehensive, culturally competent assessment of each enrolled consumer's service needs and objectives, including, but not limited to, needs for MH services, rehabilitation, housing, employment, education, social and recreational activities, and health care.
- i. Development and implementation of a Plan of Care for each enrolled consumer, which incorporates the treatment goals and objectives in accordance with principles outlined in the Short-Doyle/Medi-Cal Manual and serves as the authorization document for all services.
- j. Case management or treatment teams organized to respond to fluctuations in service intensity and able to assure integration of services and continuity of care.
- k. Treatment of psychiatric conditions in appropriate settings, including but not limited to emergency care, acute inpatient services, long term care, residential treatment and residential care.
- l. Medication treatment as appropriate and medication management.

In general, these programs have successfully improved rehabilitation outcomes by using their own staff specialists who are closely integrated into the team. However, successful rehabilitation programs have been demonstrated using other models. Regardless of the model, the following recovery-based program elements should be available via direct provision, purchase of service, interagency agreements, or other means.

- m. Consumer self-help and peer support services.
- n. A program for assisting consumers to become involved in paid work and/or education. This includes direct services or referral to

C. FSP Services

1. FSP services are delivered by multidisciplinary teams; this is not a brokering model. Staff will be available to consumers 24/7 and service plans will be designed to utilize community relationships, that are already well developed and in place. The inclusion of a behavioral health nurse on the team along with dedicated psychiatric staff will allow consistent medication evaluation, and rapid linkage to physical health providers. Within each team, a personal services coordinator is identified for each enrolled consumer. There is a 1:10 staff to consumer ratio for the intensive level of services.
2. The FSP team will operate under policies and procedures that ensure:
 - a. 24-hour, 7-day a week availability of program staff, including access to medication support services. Night and weekend treatment and support or wellness and recovery activities should be assumed as a part of program services. Consumers will have access to an emergency number to call during off hours where their situation can be assessed and responded to 24/7, including face-to-face visits.
 - b. Interventions with consumers are mostly face-to-face visits. Contact with each consumer will occur as often as clinically needed, which may be daily.
 - c. Consumer treatment will include a variety of modalities based on consumer need including, but not limited to, case management, individual or group therapy, psychiatric medication prescription, and general medication support and monitoring.
3. Continuity of care will be emphasized and will include:
 - a. Engagement during inpatient episodes includes face-to-face visits when allowed by the facility with the consumer at local hospitals and other locked facilities. For San Mateo Medical Center PES and 3AB (the SMMC in-patient psychiatric unit), FSP program staff will make phone contact with the medical facility within 4 hours of knowledge of consumer arrival and make an initial visit with the consumer within 24 hours of consumer entry.

- b. Regular contact will occur with the consumer and with inpatient treatment staff while the consumer is hospitalized. During these episodes, the FSP will work with inpatient staff to make discharge recommendations and facilitate the consumer's return to the community.
 - c. Engagement during criminal justice contacts. FSP program staff will be quickly responsive to and maintain contact with criminal justice clinical Navigators at Maguire jail when a consumer becomes incarcerated. Program staff will visit consumers when possible and work with criminal justice clinical Navigators to devise and implement a discharge plan.
 - d. Coordination including but not limited to the consumer's medical provider and assistance in following through on detailed care plans which includes transportation to and from related appointments.
4. FSP teams have final accountability for assuring the delivery of services and are responsible for service outcomes. FSP staff will generally deliver the services identified in the individualized plan, and most consumers will not be served by other parts of the behavioral health service delivery system unless stepping-down to a lower level of services. However, in some instances it may work best for a consumer to continue some services in another part of the behavioral health system (e.g., employment services). The FSP team will work in collaboration with the other service providers to assure implementation of the individualized plan.
5. FSP services will be supported by existing BHRS relationships with all aspects of the criminal justice community including Probation, Parole, Sheriff's Department and municipal Police Departments.
- a. FSP staff will collaborate within the Community Service Area (CSA) where individual consumers reside and participate in current and future collaborative meetings which address consumers at risk in the community, communication barriers between treatment providers or within the CSA, collaborative structures and approaches to make treatment more accessible and residential placement or incarceration less likely
 - b. FSP program staff will also participate in twice monthly case conference meetings with BHRS and an annual review panel to assist in the management of the consumer level of care needs.

- c. FSP program staff will also communicate substantive changes in a consumers, health, behavioral health, or criminal justice status immediately to BHRS and will collaborate to assist the consumer to resolve those issues.
6. FSP staff will have access to flexible funds so that resources can be provided that assist the consumer in achieving recovery plans.
7. Medication services will include psychiatry and nursing support for ongoing dialogues with consumers about their psychiatric medication choices, symptoms, limiting side effects, and individualizing dosage schedules. FSP team members will work with individual consumers to arrange for delivery/prompts/reminders that will support regular scheduled medications.
8. Should psychiatric inpatient care be necessary and appropriate, it will be provided as it is now, through current processes.
9. The FSP teams will provide co-occurring mental health and drug and alcohol services and supports such as individual and/or group therapy, Motivational Interviewing and harm reduction approaches. FSP programs are strongly encouraged to become certified as a Drug Medi-Cal provider. Staff will be trained in co-occurring treatment modalities and will develop commensurate programming, including groups. Drug/alcohol use will not be used as a reason for program termination.
10. At intake, a housing stability assessment will be conducted with the consumer to assess the extent to which housing subsidies, or the level of housing supports, are needed to sustain the consumer in housing. However, it is recognized that it will be important to provide temporary housing for some consumers as rapidly as possible, to avert incarceration or to shorten or prevent a sub-acute inpatient stay.
 - a. The goal is to provide permanent independent housing throughout the community.
 - b. Significant housing resources will be available to consumers in this program in the form of rental subsidies for adults and older adults.
 - c. The FSP housing resources for all age groups and will include a variety of levels of housing including independent, Board and Care, and supported housing.

Service plans will be used to help consumers identify, cultivate and sustain relationships with peers, family members, neighbors, landlords, employers, and others to create a network of support that will build the resiliency of consumers.
12. While services provided through this initiative will address the individual's underlying mental health, substance use and behavioral problems that may have contributed to involvement in the criminal justice system and institutionalization, a wide range of strategies and supports beyond behavioral health services will be essential. Substantial time and resources will be devoted to the process of engaging individuals, including outreach to those in institutions and locked settings. Services will be provided in the field, in natural settings where people conduct their lives as opposed to a clinic setting. Staff members of this program will be creative in their approach to identifying what approach or resource will make a difference to a particular individual in engaging them in treatment.
13. The Peer Partner will play a critical role, modeling personal recovery, helping consumers establish a network of peer, family, and cultural supports including, peer run self-help centers. One of the primary roles to be performed by the FSP team Peer Partners will be to establish peer relationships among FSP consumers and promote peer involvement in wellness and recovery, social, recreation, and entertainment activities. Peer support groups will be developed to further foster healthy peer relationships and to build consumer capacity to address challenges to their recovery as well as celebrate their accomplishments on the journey to recovery. This peer and resource linkage will also help maintain the consumer in the least restrictive environment.
14. Consumers will work with FSP team members to develop their own individual service and Wellness and Recovery Action Plans (WRAP) which will specify individual action steps in relation to employment, education, housing, medication, peer relations, social activities, and education. All services will be voluntary, guided by individual choice, and the delivery of all services will be guided by the principles of cultural competence, recovery and resiliency with an emphasis on building consumer strengths and natural resources in the community, with family, and with their peer/social network. The program will be designed to allow a greater or lesser degree of

support and structure, depending on the needs and goals of the consumer at any given time.

15. FSP program will assess the vocational needs for each consumer upon enrollment and annually and assist consumers in accessing vocational counseling services to identify, obtain, and retain employment opportunities and reach their vocational goals as identified in their care plan.
16. Supported education is another resource for FSP consumers. The FSP team should link with community colleges and the existing contractor for adult supported education services in San Mateo County, developing action steps in the recovery plan related to educational opportunities for consumers.
17. Consistent with the principles of wellness and recovery, the consumer will be primarily responsible for establishing the specific goals that define his/her desired quality of life including healthcare and end of life decisions. The licensed clinicians will oversee the completion of the multidisciplinary assessment and the development and implementation of a comprehensive service plan that involves all members of the team, the consumer and the family contingent on the consumer's wishes. This plan will define the roles and responsibilities of the team, as well as those of the consumer, the family, and peers.
18. The role of the nurse will be to enable the team to more effectively collaborate with primary care providers, assist consumers in both their communications with their primary care doctors and in their follow-up on medical care, including medical treatment regimes, and lifestyle changes due to medical complications and provide adherence to treatment protocols. The role of the nurse in providing education and monitoring of and adherence to medical treatment will increase medical and medication engagement and enable the consumer to maintain their community placement.
19. The FSP program staff will assess and arrange for services and supports as appropriate for each consumer based on a range of supports including:
 - a. Transportation and escorted services to assist at medical appointments and with other transportation needs.
 - b. Monitoring and/or arranging for home-based support with routine tasks and personal care needs (e.g. meal preparation, house

- viii. The FSP will also present to the case management meeting cases in which consumers choose to dis-enroll from the program or are otherwise no longer appropriate for FSP level of care. Every opportunity will be given in advance for the consumer to be re-engaged before disenrollment, during which time the program will be responsible for continued outreach/engagement as well as linking the consumer to alternative services.

Length of stay in the FSP program is determined by consumer level of care needs which will be assessed regularly by the FSP provider and formally discussed on an annual basis with at the case management meeting. FSP providers will develop and implement an internal system of review of consumer level of care needs to assess when consumers may be ready to graduate from FSP services.

L. Quality and Data Outcomes

1. A specific component of the San Mateo County Quality Plan will be developed to track FSP programs.
2. The key outcomes include:
 - a. Residential / Hospital / Incarceration Status;
 - b. Justice System Involvement Status;
 - c. Emergency Intervention;
 - d. Education;
 - e. Employment;
 - f. Benefits;
 - g. Conservatorship / Payee Status.
3. These domains, as well as the method of data collection, Key Event Tracking (KET) and Quarterly Assessment Form (3M), are consistent with the measurement strategy developed by the AB2034 program - which has been successful in demonstrating that

program's effectiveness. It is crucial that the vendor maintain accurate, timely reporting of outcome data.

4. The indicators/domains to be collected by the KET method are those which are best measured as the changes are occurring. These would be domains such as residential status. Residential status is a domain for which all changes are relevant. For example, it is important to know when and to what type of residence a person moved, in order to count the days in different types of residences, as well as the progression toward more independent living over time. If residential status is only collected on an interim basis, e.g., annually, the resulting data are not very meaningful, nor useful.
5. Other indicators/domains will be measured using the 3M tool. This measure will produce quarterly summaries of the consumer's progress in important areas such as, education, financial support, legal status and issues, health status, substance use, and activities of daily living. Other indicators/domains will be measured using the 3M tool. This measure will produce quarterly summaries of the consumer's progress in important areas such as, education, financial support, legal status and issues, health status, substance use, and activities of daily living.

1. The number served;
2. The number who are able to maintain housing;
3. The number of contacts with law enforcement;
4. The number participating in employment services programs;
5. Psychiatric hospitalization days;
6. Days incarcerated;
7. Adherence to prescribed treatment;

8. Victimization of persons in the program;
9. Violent behavior of persons in the program;
10. Substance abuse by persons in the program;
11. Type, intensity, and frequency of treatment of persons in the program;
12. Satisfaction with program services both by those receiving them and by their families, when relevant.

County accepts no financial responsibility for services provided to beneficiaries where there is a responsible third party payor, and to the extent that County inadvertently makes payments to Contractor for such services rendered, County shall be entitled to recoup such reimbursement. Any such recoupment would be made through a reduction in monthly payment amount for subsequent services. If there are no payments for subsequent services, contractor shall submit a check for payment to the BHRS Contracts Unit.

- b. Contractor shall provide a copy of the completed Payor Financial Form (Attachment D) and subsequent annual updates for all clients who receive services through this agreement. For clients who begin to receive services during the term of this Agreement, completed Payor Financial Forms shall be provided to the County with client registration forms.
