Contractor shall, at Contractor's option and expense, either: (i) procure for County the right to continue using the

services without infringement or (ii) replace or modify the services so that they become non-infringing but remain functionally equivalent.

Notwithstanding anything in this Section to the contrary, Contractor will have no obligation or liability to County under this Section to the extent any otherwise covered claim is based upon: (a) any aspects of the services under this Agreement which have been modified by or for County (other than modification performed by, or at the direction of, Contractor) in such a way as to cause the alleged infringement at issue; and/or (b) any aspects of the services under this Agreement which have been used by County in a manner prohibited by this Agreement.

The duty of Contractor to indemnify and save harmless as set forth by this Section shall include the duty to defend as set forth in Section 2778 of the California Civil Code.

Contractor shall not assign this Agreement or any portion of it to a third party or subcontract with a third party to provide services required by Contractor under this Agreement without the prior written consent of County. In the event of the breach of any provision of this Section, or in the event any notice is received which indicates any required insurance coverage will be diminished or canceled, County, at its option, may, notwithstanding any other provision of this Agreement to the contrary, immediately declare a material breach of this Agreement and suspend all further work and payment pursuant to this Agreement.

Dear Contractor, Vendor, or Supplier:

I am the Procurement Manager for the County of San Mateo, California ("County"), and I write because you have been identified as the contact person for a person or entity that has an agreement with the County of San Mateo (the "County") to provide goods or services.

All County contracts include terms that require contractors to comply with applicable laws while performing under the agreements. As you may know, the United States and State of California have taken action against Russia in response to its aggression in Ukraine, including by imposing economic sanctions. The County is working to ensure compliance with these sanctions and related orders.

Detailed information about the sanctions, including relevant Executive Orders issued by the President of the United States and the Governor of California, may be found at the following websites maintained by the United States and the State of California:

- https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions
- https://www.dgs.ca.gov/OLS/Ukraine-Russia

The County is hereby directing its contractors, vendors, and suppliers, including you, to notify the County if the provision of goods and/or services under any agreement with the County, or payment under any such agreement, is prohibited by these sanctions. If you have reason to believe that the sanctions against Russia prohibit performance or payment under your agreement with the County, please send an email to procurement@smcgov.org with the subject line "Sanctions Against Russia." Please include the relevant contract/agreement number, if you know it, or a copy of the agreement, with your email. Please also include a short explanation of why you have reason to believe that the sanctions against Russia prohibit performance or payment under the agreement.

We greatly appreciate your partnership with the County and your attention to this important matter. Please also keep in mind that failure to comply with applicable law, including the above-referenced sanctions, could result in contract termination.

If you have any questions regarding this correspondence, please do not hesitate to contact the County's Procurement Department at procurement@smcgov.org, or call me at (650) 363-4408.

Sincerely.

Jas Sandhar, Procurement Manager

The County, however, shall pay all filing fees required for the assignment, transfer, recording, and/or application.
- Contractor agrees that before commencement of any subcontract work it will
  incorporate this <u>ATTACHMENT IP</u> to contractually bind or otherwise oblige its
  subcontractors and personnel performing work under this Agreement such that the
  County's titles, rights, and interests in Work Products are preserved and protected as
  intended herein.
