In exchange for the payments outlined in Exhibit B, the County of San Mateo Healthcare for the Homeless/Farmworker Health Program (HCH/FH) contracts Life Moves (Contractor) to provide:

Definitions

Farmworkers - Health Resources & Services Administration (HRSA) Bureau of Primary Health Care (BPHC) define farmworkers as individuals whose principal employment is in agricultural employment at any time within the past 24 hours months, as well as individuals who are retired or disabled former farmworkers. HRSA defines farmworker dependents as family members who rely on the farmworker's income

Homeless - An individual experiencing homelessness is a person who lacks housing (without regard to whether the individual is a member of a family), including individuals whose primary residence during the night is at a location classified as unfit for human habitation (e.g., street, field, abandoned building), a supervised public or private facility that provides temporary living accommodations, a day-to-day temporary and unstable living arrangement in someone else's home (doubled up), in transitional housing, or in permanent supportive housing. For the purposes of this agreement, newly housed is defined as an individual or household that has acquired stable housing within 90 days. At least 90% of the clients who will receive Abode services under this contract should be SMMC clients (i.e., new, established, or eligible to become established).

Each individual receiving services under this contract must be unique and unduplicated, meaning they haven't been previously served or invoiced for the same service during the reporting period. HCH/FH will track services based on Contractor invoices.

A visit counts if it meets HRSA/BPHC criteria: a documented, face-to-face or virtual interaction with a licensed or credentialed provider using independent judgment.
