Exhibit D – Clarity
Last Revised December 2018
Clarity Human Services System
Usage and Data Sharing Agreement for Core Service Agencies and Homeless Service Providers

In 2014, Core Service Agencies and homeless service providers migrated to the secure, private and confidential Clarity Human Services system network by Bitfocus (“Clarity”). This migration to Clarity allows for data sharing across providers.

Commitment to Data Entry

The Core Service Agencies and homeless service providers agree to timely enter into Clarity’s secure system accurate data about the clients to whom they provide safety net services and homeless services pursuant to their contracts with the County of San Mateo (“County”). Timely entry of this data is crucial to the Core Service Agencies and homeless service providers’ ability to refer clients to other providers, report accurate performance measures and to capture data on community need.

If any provider experiences difficulty in timely entry of data into Clarity, they will notify HSA of the delay, seek technical assistance if necessary and provide a plan within one week to bring the data entry current as soon as possible.

Confidentiality of Client Data

Core Service Agencies and homeless service providers will establish appropriate administrative, technical, and physical safeguards to protect the confidentiality of the data and to prevent unauthorized use or access to it.

The data in Clarity shall not be disclosed to anyone or any entity except in connection with the administration of the safety net and homeless service programs, as necessary to achieve the provision of homeless and safety net services, or for the analysis of the data to show performance measurements, including that of contract compliance.

The data may be reviewed by San Mateo County personnel on a need to know basis to check performance measurements, community trends, client services, and for the purpose of monitoring contract compliance. Summary results (e.g., non-identifying information such as general statistical data, caseload provide data, funding and expenditure information) is non-confidential may be shared upon request. Data that contains identifying information will be accessible and shared on a need-to-know basis only, and only to the extent permitted by applicable law.

Core Service Agencies and homeless service providers acknowledge that these confidential data are proprietary to the County and agree to comply with all applicable State and Federal confidentiality

laws and regulations.

To authorize the parties to this Agreement to share individually identifiable client information, clients who are entered into the system must sign a Client Consent for Clarity System Data Collection and Release of Information form that will be kept with their records in Clarity and/or in their paper file. The release informs the client that partner agencies in San Mateo County will have access on a need-to-know basis to their records in the secure system. If a client refuses to sign a release, services will not be denied and the client will be entered into Clarity as a private client.

When an agency is requesting a Clarity license for a new staff, the agency director or manager will review with the staff the confidentiality and security rules regarding Clarity and will send the completed, signed Clarity oath of confidentiality form to HSA to request a new account.

ACCESS TO THE CLARITY SYSTEM AFTER EMPLOYEMENT ENDS IS PROHIBITED. If an authorized user separates from employment with a Core Service Agency or homeless service provider, notification must be made as soon as possible to the HSA Service Desk in advance of the employee leaving. The request will provide a license termination date.

If any license goes unused for more than 90 days, that license may be deactivated. The agency holding the license will be notified prior to deactivation of the license and the agency will have 5 business days to respond with a request if the license is to be continued.

System Configuration Change Requests

All agencies Change Requests (CR) will be evaluated by HSA. For the cost of all Change Requests (CRs) unique to one or a group of agencies and for non-Core or non-HMIS standard programs, payment shall be made by the requesting agency(ies).

User Support

If a Core Service Agency or homeless service provider experiences any technical difficulty with the system, a service request must be sent to the Human Services Agency, Business Systems Group at hsa_servicedesk@smcgov.org or (650) 802-7573.

Contractor/Service Provider Agreement

The Core Service Agencies and homeless service providers agree to train their staff and to establish internal processes and procedures to ensure all staff and volunteers safeguard clients' confidentiality and privacy and enter accurate, complete data. It is understood that accessing Clarity's secure, private and confidential network is for the sole purpose of serving clients. All authorized individuals accessing the Clarity network of Core Service Agencies and homeless service providers must have a legitimate business reason when searching and accessing information. All activity is logged and participating agencies understand and agree that this audit trail can be viewed at any time by authorized County personnel.

Encryption must be a FIPS 140-2 certified algorithm 128 bit or higher, such as AES. It is encouraged, when available and when feasible, that the encryption be 256 bit.
19. Contractor shall ensure that all workstations, laptops and other systems, which process and/or store PII, must install and actively use an antivirus software solution. Antivirus software should have automatic updates for definitions scheduled at least daily. In addition, Contractor shall ensure that:
20. All workstations, laptops and other systems, which process and/or store PII, must have critical security patches applied, with system reboot if necessary.
21. There must be a documented patch management process that determines installation timeframe based on risk assessment and vendor recommendations.
22. At a maximum, all applicable patches deemed as critical must be installed within thirty (30) days of vendor release. It is recommended that critical patches which are high risk be installed within seven (7) days.
23. Applications and systems that cannot be patched within this time frame, due to significant operational reasons, must have compensatory controls implemented to minimize risk.
24. Contractor shall ensure that all of its staff accessing Personally Identifiable Information on applications and systems will be issued a unique individual password that is a least eight (8) characters, a non-dictionary word, composed of characters from at least three (3) of the following four (4) groups from the standard keyboard: upper case letters (A-Z); lower case letters (a-z); Arabic numerals (0-9) and special characters (!, @, #, etc.). Passwords are not to be shared and changed if revealed or compromised. All passwords must be changed every (90) days or less and must not be stored in readable format on the computer or server.
25. Contractor shall ensure that usernames for its staff authorized to access PII will be promptly disabled, deleted, or the password changed upon the transfer or

termination of an employee within twenty- four (24) hours. Note: Twenty-four (24) hours is defined as one (1) working day.

26. Contractor shall ensure when no longer needed, all PII must be cleared, purged, or destroyed consistent with NIST SP 800-88, Guidelines for Media Sanitization, such that the Personally Identifiable Information cannot be retrieved.
27. Contractor shall ensure that all of its systems providing access to PII must provide an automatic timeout, requiring re-authentication of the user session after no more than twenty (20) minutes of inactivity.
28. Contractor shall ensure that all of its systems providing access to PII must display a warning banner stating, at a minimum that data is confidential; systems are logged, systems use is for business purposes only by authorized users and users shall log off the system immediately if they do not agree with these requirements.
29. Contractor will ensure that all of its systems providing access to PII must maintain an automated audit trail that can identify the user or system process which initiates a request for PII or alters PII. The audit trail shall be date and time stamped; log both successful and failed accesses be read-access only; and be restricted to authorized users. If PII is stored in a database, database logging functionality shall be enabled. The audit trail data shall be archived for at least three (3) years from the occurrence.
30. Contractor shall ensure that all of its systems providing access to PII shall use role-based access controls for all user authentications, enforcing the principle of least privilege.
31. Contractor shall ensure that all data transmissions of PII outside of its secure internal networks must be encrypted using a Federal Information Processing Standard (FIPS) 140-2 certified algorithm that is 128 bit or higher, such as Advanced Encryption Standard (AES) or Transport Layer Security (TLS). It is encouraged, when available and when feasible, that 256-bit encryption be used. Encryption can be ended at the network level, or the data files containing PII can be encrypted. This requirement pertains to any type of PII in motion such as website access, file transfer, and email.
32. Contractor shall ensure that all of its systems involved in accessing, storing, transporting, and protecting PII, which are accessible through the Internet, must be protected by an intrusion detection and prevention solution.
33. Contractor shall ensure that audit control mechanisms are in place. All Contractor systems processing and/or storing Personally Identifiable Information must have a least an annual system risk assessment/security review that ensure administrative, physical, and technical controls are functioning effectively and provide an adequate level of protection. Review shall include vulnerability scanning tools.

34. Contractor shall ensure that all of its systems processing and/or storing PII must have a process or automated procedure in place to review system logs for unauthorized access.
35. Contractor shall ensure that all of its systems processing and/or storing PII must have a documented change control process that ensures separation of duties and protects the confidentiality, integrity and availability of data.
36. Contractor shall establish a documented plan to enable continuation of critical business processes and protection of the security of PII kept in an electronic format in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than twenty-four (24) hours.
37. Contractor shall ensure its data centers with servers, data storage devices, and critical network infrastructure involved in the use, storage and/or processing of PII, must include environmental protection such as cooling, power, and fire prevention, detection, and suppression.
38. Contractor shall establish documented procedures to backup PII to maintain retrievable exact copies of PII. The documented backup procedures shall contain a schedule which includes incremental and full backups, storing backups offsite, inventory of backup media, recovery of PII data, an estimate of the amount of time needed to restore PII data.
39. Contractor shall ensure that PII in paper form shall not be left unattended at any time, unless it is locked space such as a file cabinet, file room, desk or office. Unattended means that information may be observed by an individual not authorized to access the information. Locked spaces are defined as locked file cabinets, locked file rooms, locked desks, or locked offices in facilities which are multi-use, meaning that there are Contractor's staff and non-Contractor functions in one building in work areas that are not securely segregated from each other. It is recommended that all PII be locked up when unattended at any time, not just within multi-use facilities.
40. Contractor shall ensure that any PII that must be disposed of will be through confidential means, such as cross cut shredding or pulverizing.
41. Contractor agrees that PII must not be removed from its facilities except for identified routine business purposes or with express written permission of the County.
42. Contractor shall ensure that faxes containing PII shall not be left unattended and fax machines shall be in secure areas. Faxes containing PII shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them and notify the sender. All fax numbers shall be verified with the intended recipient before send the fax.
43. Contractor shall ensure that mailings containing PII shall be sealed and secured from damage or inappropriate viewing of PII to the extent possible. Mailings that include five hundred (500) or more individually identifiable records containing PII in a single

package shall be sent using a tracked mailing method that includes verification of delivery.

D. Reporting of Breaches Required by Contractor to County; Mitigation

1. Contractor shall report to County within one business day of discovery, to the County contact listed in this agreement by email or telephone as listed in the of unsecured PII, if that PII was, or is, reasonably believed to have been accessed or acquired by an unauthorized person, any suspected security incident, intrusion or unauthorized access, use or disclosure of PII in violation of this Agreement, or potential loss of confidential data affecting this Agreement.
2. Contractor understands that State and Federal Law requires a breaching entity to notify individuals of a breach or unauthorized disclosure of their PII. Contractor shall ensure that said notifications shall comply with the requirements set forth in California Civil Code section 1798.29, and 42 U.S.C. section 17932, and its implementing regulations, including but not limited to, the requirement that the notifications be made without unreasonable delay and in no event later than sixty (60) calendar days.
3. Contractor agrees to promptly mitigate, to the extent practicable, any harmful effect that is known to Contractor stemming from a use or disclosure of PII in violation of the requirements of this Agreement, including taking any action pertaining to such use or disclosure required by applicable Federal and State laws and regulations.

E. Permitted Uses and Disclosures of PII by Contractor

1. Except as otherwise limited in this schedule, Contractor may use or disclose PII to perform functions, activities, or services for, or on behalf of, County as specified in the Agreement; provided that such use or disclosure would not violate the Privacy Rule if done by County.

1. County shall provide Contractor with the notice of privacy practices that County produces in accordance with California Welfare and Institutions Code section 10850, as well as any changes to such notice.
2. County shall notify Contractor of any changes in, or revocation of, permission by Individual to use or disclose PII, if such changes affect Contractor's permitted or required uses and disclosures.
3. County shall notify Contractor of any restriction to the use or disclosure of PII that County has agreed to in accordance with California Welfare and Institutions Code section 10850.

G. Permissible Requests by County

1. County shall not request Contractor to use or disclose PII in any manner that would not be permissible under the Privacy Rule if so requested by County, unless

Contractor will use or disclose PII for, and if the Agreement provides for, data aggregation or management and administrative activities of Contractor.

H. Duties Upon Termination of Agreement

1. Upon termination of the Agreement, for any reason, Contractor shall return or destroy all PII received from County, or created, maintained, or received by Contractor on behalf of County that Contractor still maintains in any form. This provision shall apply to PII that is in the possession of subcontractors or agents of Contractor. Contractor shall retain no copies of the PII.
2. In the event that Contractor determines that returning or destroying PII is infeasible, Contractor shall provide to County notification of the conditions that make return or destruction infeasible. Upon mutual Agreement of the Parties that return or destruction of PII is infeasible, Contractor shall extend the protections of the Agreement to such PII and limit further uses and disclosures of such PII to those purposes that make the return or destruction infeasible, for so long as Contractor maintains such PII.
