I. DESCRIPTION OF SERVICES

Behavioral Health Services Act (BHSA) Early Intervention services target high risk individuals who are experiencing early signs of mental health or substance use conditions, or who have experienced known risk factors for poor behavioral health outcomes, such as trauma, adverse childhood experiences (ACEs) or involvement with the child welfare system or juvenile justice system or experiencing homelessness.

There are three required components for BHSA Early Intervention services including 1) targeted trauma-informed and culturally responsive outreach services, 2) screening for linkages to appropriate care, and 3) integrated mental health and substance use services and supports.

The Trauma-Informed Prevention and Early Intervention (PEI) for Youth includes evidence-based and community defined interventions for high-risk school age and transition age youth who struggle with trauma and substance use behavioral issues. Interventions reach youth in non-traditional behavioral health settings such as schools, drop-in centers, shelters, probation and other youth-focused service settings and community-based agencies. The Contractor will implement *El Joven Noble Rites of Passage* Character Development Program, the *Transformative Life Skills* multimodal intervention, and individual and family therapy services, as needed.

A. Service Approach

1. Trauma-informed. All six key principles of a trauma-informed approach shall be incorporated when serving youth with mental illness and/or co-occurring substance use challenges and their families: safety, trustworthiness and transparency, peer support, collaboration, empowerment; and cultural, historical and gender issues.
2. Cultural responsiveness. Culturally responsive services are sensitive to the diverse cultural identity; are delivered by bilingual/bicultural staff, and/or are available in the primary language of clients; and use the natural supports provided by the client's culture and community. Outreach and engagement strategies shall be designed to reach diverse communities.

3. Integrated approach. Services will ensure that mental health and substance use challenges are addressed and integrated. Mental health and substance use challenges need to be identified and appropriate treatment and/or referrals to treatment provided that is tailored to clients' unique needs and engage families and the community as appropriate.
4. Community Resilience. As literature continues to grow, we are able to draw the connections between the social determinants of health (SDOH), such as lack of affordable safe housing, quality medical care and education, to preventing and protecting youth from Adverse Childhood Experiences (ACEs). ACEs are imperative to address because they are associated with a variety of health impacts including depression, post-traumatic stress disorder, anxiety, attempted suicide, substance use, academic achievement and high-risk sexual behaviors. A community resilience approach that addresses youth needs at multiple levels (SDOH, ACEs) can improve youth behavioral health outcomes and foster collaboration across child health, public health and community-based supports.

B. Service Components

Contractor will provide the three required components:

1. Group-Based Intervention and Individual Counseling
2. Community Engagement
3. Social Determinants of Health (SDOH) Screening and Referrals

C. Population to be Served

The Trauma-Informed PEI for youth focuses on youth who are at greatest risk for adverse childhood experiences, including youth of color, LGBTQ+ youth and youth who grow up in poverty.

1. Contractor will serve largely Latino, rural, socioeconomically disadvantaged, and refugee population children, youth, and transitional age youth (and their parents and caregivers) including LGBTQ+ youth.
2. Contractor will collaborate with the La Honda-Pescadero Unified School District (LHPUSD), one of the smallest school districts in the region with approximately 300 students.
3. Youth ages 18-25 will be recruited through other Puente programs, outreach tools such as Talking Points and social media, and from current Puente participants.

  7. Youth requiring more intensive and/or longer-term supports will be referred to the Coastside clinic directly for appropriate assistance.

1. Contractor will screen all school- and transitional aged-youth participants selected for each cohort for health coverage, mental health and substance use needs, and social determinants of health impacts to support appropriate referrals and identifying community-based social service resources and social needs and/or gaps.
