Nutanix	Nutanix software and hardware maintenance	The maintenance for the County's Nutanix software includes a hypervisor, storage services, and a management layer. This allows organizations to build and manage their data centers more efficiently, with the flexibility to run applications on-premises or in a hybrid cloud environment. Nutanix software simplifies IT infrastructure and reduce complexity, making it easier for County departments to deploy and manage their applications and workloads.				\$ 600,000.00	5/1/2026	11/4/2027

OKTA	OKTA software maintenance renewal	The Okta service provides single sign on for all systems within the County enterprise. This platform facilitates all users and their access to critical software applications countywide. This platform vastly reduces the time it takes for County workforce members to log into operationally critical services. In addition, this platform hosts all multi-factor authentication (MFA) services which is critical for all remote access to the County network and required by County policy. The Okta maintenance agreement covers all critical and non-critical platform updates, allows technical engineers to access Okta technical support and provides for critical platform patches required to maintain the service and general viability of the platform.				\$ 600,000.00	7/21/2026	7/20/2027
