Visitor Experience

Visitor Data

A summary of all visitor count data for July to December 2025 is included in Attachment 1. In the last six months of 2025, the San Mateo County Parks Department served approximately 1,468,287 visitors. For comparison, approximately 1,242,818 people visited parks in the last 6 months of 2024. This is an increase of over 225,000 visitors. On par with long-term visitation data, the most visited parks in the system include Crystal Springs Regional Trail (320,391 visitors), Coyote Point Recreation Area (212,380 visitors), Fitzgerald Marine Reserve (144,766 visitors), and San Pedro Valley County Park (129,785 visitors).

Interpretive Events

From November to December 2025, the Interpretive Division hosted or participated in 21 programs, serving approximately 572 people. Two new classroom programs were introduced, focusing on watersheds and tidepools. Interpretive panels were created and installed in the new San Bruno Mountain Interpretive Pavilion. The details of interpretive programs are included in this report as Attachment 2.

Volunteer Events

From November to December 2025, the Volunteer Program hosted 20 volunteer events throughout the parks system. These events totaled 1239 hours of volunteer effort supporting and improving the parks. The details of each event are included in this report as Attachment 3.

Facilities and Infrastructure

Don Horsley County Park at Tunitas Creek Beach

Opening of the park is delayed until Summer 2026 due to two landslides that are threatening the main access path to the beach. The Parks Department is working with the Department of Public Works to repair the landslides. The contractor hired to repair the landslides will complete project design documents by mid-January with construction expected to start in March/April 2026. Current schedule has construction occurring for three months.

Realize Flood Park

Construction of the playground continues to progress. The large towers have been installed, and we are waiting for slides to be delivered and installed. The playground fencing and landscape plantings are in the process of being installed. Once completed, the poured-in-place surfacing will be installed; this will take approximately four weeks to complete. Current project schedule has the playground opening to the public in spring 2026; however, this is weather permitting.

San Bruno Mountain Day Use Improvement Project

The restroom and interpretive pavilion are nearly complete. Winter storms caused three

shallow sinkholes to appear in the day use area, which will need to be repaired prior to opening. Park staff have been constructing the new tables and installing them in the picnic sites. The projected opening date is early spring 2026.

Revitalize Coyote Point

The Magic Mountain Playground is nearing its 20-year anniversary, and a community survey was launched in 2025 to learn what playground improvements park users would like to see to revitalize this popular play area. The Department is in the process of selecting a Design Build Entity to replace this playground. The community will have one more opportunity to provide input for a preferred design before construction begins in Spring 2026.

Natural Resource Management

Pescadero Creek County Park Forest Health and Fuel Reduction Project

Community Tree Service (the project contractor) resumed work this week in Pescadero Creek County Park. The project comprises a total of 541 acres of treatment area and general treatments include mechanical mastication and handwork, which will reduce the density of understory vegetation, ladder fuels, and dead, dying and diseased trees to improve biodiversity and resiliency against wildfire, drought, pests, and climate change.
