WHEREAS, the County uses a Pavement Management System, which maintains the road network Pavement Condition Index, to develop the SB1 project list to ensure revenues are being used on the most high-priority and cost-effective projects while meeting the communities' priorities for transportation investment; and

WHEREAS, the funding from SB1 will help the County maintain and rehabilitate the County-maintained roads, bridges, and infrastructure throughout the County this year and with similar projects in the future; and

WHEREAS, the 2022 California Statewide Local Streets and Roads Needs Assessment found that the County's streets and roads are at the "good" condition and this revenue will help the County maintain or increase the overall quality of the road system and over the next decade will maintain County streets and roads in a "good" condition; and

WHEREAS, the SB1 project list and overall investment in local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices, will have significant positive co-benefits statewide.
