Contractor shall indemnify and save harmless County and its officers, agents, employees, and servants from all claims, suits, or actions of every name, kind, and

b. Intellectual Property Indemnification

Contractor hereby certifies that it owns, controls, and/or licenses and retains all right, title, and/or interest in and to any intellectual property it uses in relation to this Agreement, including the design, look, feel, features, source code, content, and/or other technology relating to any part of the services it provides under this Agreement and including all related patents, inventions, trademarks, and copyrights, all applications therefor, and all trade names, service marks, know how, and trade secrets (collectively referred to as "IP Rights") except as otherwise noted by this Agreement.

Contractor shall defend, indemnify, and hold harmless County from and against all liabilities, costs, damages, losses, and expenses (including reasonable attorney fees) arising out of or related to any claim by a third party that the services provided under this Agreement infringe or violate any third-party's IP Rights provided any such right is enforceable in the United States. Notwithstanding anything in this Section to the contrary, Contractor will have no obligation or liability to County under this Section to the extent any otherwise covered claim is based upon: (a) any aspects of the services under this Agreement which have been modified by or for County (other than modification performed by, or at the direction of, Contractor) in such a way as to cause the alleged infringement at issue; and/or (b) any aspects of the services under this Agreement which have been used by County in a manner prohibited by this Agreement.

The duty of Contractor to indemnify and save harmless as set forth by this Section shall include the duty to defend as set forth in Section 2778 of the California Civil Code.

9. Assignability and Subcontracting

Contractor shall not assign this Agreement or any portion of it to a third party or subcontract with a third party to provide services required by Contractor under this Agreement without the prior written consent of County. Any such assignment or subcontract without County's prior written consent shall give County the right to automatically and immediately terminate this Agreement without penalty or advance notice.

10. Insurance

a. General Requirements

Contractor shall not commence work or be required to commence work under this Agreement unless and until all insurance required under this Section has been obtained and such insurance has been approved by County's Risk Management, and Contractor shall use diligence to obtain such insurance and to obtain such approval. Contractor shall furnish County with certificates of insurance evidencing the required coverage, and there shall be a specific contractual liability endorsement extending Contractor's coverage to include the contractual liability assumed by Contractor pursuant to this Agreement. These certificates shall specify or be endorsed to provide that thirty (30) days' notice must be given, in writing, to County of any pending change in the limits of liability or of any cancellation or modification of the policy.

b. Workers' Compensation and Employer's Liability Insurance

Contractor shall have in effect during the entire term of this Agreement workers' compensation and employer's liability insurance providing full statutory coverage. In signing this Agreement, Contractor certifies, as required by Section 1861 of the California Labor Code, that (a) it is aware of the provisions of Section 3700 of the California Labor Code, which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of the Labor Code, and (b) it will comply with such provisions before commencing the performance of work under this Agreement.

c. Liability Insurance

Contractor shall take out and maintain during the term of this Agreement such bodily injury liability and property damage liability insurance as shall protect Contractor and all of its employees/officers/agents while performing work covered by this Agreement from any and all claims for damages for bodily injury, including accidental death, as well as any and all claims for property damage which may arise from Contractor's operations under this Agreement, whether such operations be by Contractor, any subcontractor, anyone directly or indirectly employed by either of them, or an agent of either of them. Such insurance shall be combined single limit bodily injury and property damage for each occurrence and shall not be less than the amounts specified below:

- (a) Comprehensive General Liability... \$1,000,000
- (b) Motor Vehicle Liability Insurance... \$1,000,000
- (c) Professional Liability..... \$1,000,000

County and its officers, agents, employees, and servants shall be named as additional insured on any such policies of insurance, which shall also contain a provision that (a) the insurance afforded thereby to County and its officers, agents, employees, and

servants shall be primary insurance to the full limits of liability of the policy and (b) if the County or its officers, agents, employees, and servants have other insurance against the loss covered by such a policy, such other insurance shall be excess insurance only.

In the event of the breach of any provision of this Section, or in the event any notice is received which indicates any required insurance coverage will be diminished or canceled, County, at its option, may, notwithstanding any other provision of this Agreement to the contrary, immediately declare a material breach of this Agreement and suspend all further work and payment pursuant to this Agreement.

11. Compliance With Laws

All services to be performed by Contractor pursuant to this Agreement shall be performed in accordance with all applicable Federal, State, County, and municipal laws, ordinances, and regulations, including but not limited to the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and the Federal Regulations promulgated thereunder, as amended (if applicable), the Business Associate requirements set forth in Attachment H (if attached), the Americans with Disabilities Act of 1990, as amended, and Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability in programs and activities receiving any Federal or County financial assistance. Such services shall also be performed in accordance with all applicable ordinances and regulations, including but not limited to appropriate licensure, certification regulations, provisions pertaining to confidentiality of records, and applicable quality assurance regulations. In the event of a conflict between the terms of this Agreement and any applicable State, Federal, County, or municipal law or regulation, the requirements of the applicable law or regulation will take precedence over the requirements set forth in this Agreement.

Further, Contractor certifies that it and all of its subcontractors will adhere to all applicable provisions of Chapter 4.106 of the San Mateo County Ordinance Code, which regulates the use of disposable food service ware. Accordingly, Contractor shall not use any non-recyclable plastic disposable food service ware when providing prepared food on property owned or leased by the County and instead shall use biodegradable, compostable, reusable, or recyclable plastic food service ware on property owned or leased by the County.

The nondiscrimination requirements of 41 C.F.R. 60-741.5(a) are incorporated into this Agreement as if fully set forth here, and Contractor and any subcontractor shall abide by the requirements of 41 C.F.R. 60-741.5(a). This regulation prohibits discrimination against qualified individuals on the basis of disability and requires affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified individuals with disabilities.

Such notification shall include a general description of the circumstances involved and a general description of the kind of discrimination alleged (for example, gender-, sexual orientation-, religion-, or race-based discrimination).

Violation of the non-discrimination provisions of this Agreement shall be considered a breach of this Agreement and subject the Contractor to penalties, to be determined by the County Manager, including but not limited to the following:

All of Contractor's CRTs are accredited by CARF International.

B. Overview

The San Mateo County Behavioral Health and Recovery Services (BHRS) Serenity House Crisis Residential (SHCR) is an alternative to hospitalization and incarceration for adults experiencing an acute psychiatric episode. These services may also be used for clients who are deteriorating in their current environment, and who would benefit from a respite stay. The respite stay is short-term, designed to stabilize and return clients to their current living situation if appropriate, or an alternative stable environment. SHCR services may also be utilized for clients who are psychiatrically de-stabilized as a result of loss of housing, placement or support system. Contractor shall deliver short term SHCR services twenty-four (24) hours a day, seven (7) days a week for up to thirteen (13) adult clients with psychiatric disabilities eighteen (18) years and over, and who are voluntarily admitted to the program. The SHCR will be staffed twenty- four (24) hours a day, seven (7) days per week, with qualified staff as required by applicable standards and regulations and as agreed upon by the County. The SHCR shall provide a variety of support and stabilization services within a clean and sober environment.

C. Program Design-General

1. Property Acquisition

Contractor, in collaboration with BHRS, shall operate a Respite Center located at 3701 Hacienda Street, San Mateo California that will accommodate up to thirteen (13) clients at a time. Telecare will lease the building for ONE DOLLAR (\$1) per month, per year, and will pay utilities, janitorial service and be responsible for basic maintenance. Department of Public Works will invoice Contractor for PG and E and Water. Contractor agrees to the terms and conditions as specified in Exhibit C- License for Use of Real Property, attached hereto incorporated by reference. BHRS will be responsible for capital repairs and improvements. Contractor will be responsible for furnishings, purchase of linens, and administrative overhead. If start up monies are utilized to purchase furnishings, the furnishings will become County property. Upon contract termination, any County owned property will need to be turned over to the County. Please refer to Exhibit E for further details.

2. Licensing/Operations/Services

a. Licensing and Certification

Contractor shall maintain all relevant licenses and certifications necessary to operate a crisis residential facility from the California Department of Social Services, Community Care Licensing Division.

Contractor is responsible to comply with all documentation standards and requirements as set forth by the California Department of Social Services, Community Care Licensing Division.

Contractor will meet and maintain all requirements for Medi-Cal certification and comply with all pertinent documentation required for Medi-Cal, Medicare, and any other federal or state regulation applicable to reimbursement.

b. Hours of Operation

SHCR will be staffed twenty-four (24) hours a day, seven (7) days per week, with qualified staff as required by applicable standards and regulations and as agreed upon by the County. Additionally, there will be overnight clinical coverage. The overnight therapist's clinical duties include: conduct intake mental health assessments; determine appropriateness of clients coming to Serenity House, complete phone referral forms, schedule intake, complete intake paperwork, support clients and para-professional staff through the night, conduct therapy as needed with clients, address any clinical crisis during their shift, support clients in going to higher level of care if needed, transport client when safe, otherwise write a 5150 and seek transportation from first responders.

c. Staffing

The staff shall have demonstrated knowledge about the ethnic and cultural diversity of the clients served. Additionally, staff will include a mix of consumers, family members of consumers, licensed clinical staff, non-licensed staff, nurses, psychiatric coverage students, and interns of various types. Contractor shall provide a staffing pattern that includes appropriate clinical and administrative staff as described in contractors' proposal.

d. Admission/Discharge

1. Referrals will come from a variety of sources including: Self-referral, or by family members, the Family Assertive Support Team, Psychiatric Emergency Services, Law enforcement, BHRS, and contract providers.
2. Discharge will be based on specific behavioral/psychiatric criteria in collaboration with the referral source, and/or affiliated program/services.

D. Program Services

Contractor will incorporate a full array of evidence-based and promising practices for adults experiencing mental health crisis.

Brief Solution-Focused Therapy builds on the individual's own strengths, resources, and supports to solve the crisis and prevent it from recurring. Using this framework, staff will work with the individual to fully understand the circumstances of the crisis, support the individual in arriving at their own solutions to the current crisis and related problems, and affirm the strengths, relationships and coping mechanisms that individuals may already have in place. Consistent with the federal Substance Abuse and Mental Health Services Administration's (SAMHSA) Practice Guidelines: Core Elements for Responding to Mental Health Crises.

Peer Professional Support

Robust peer support will be offered seven days a week and will connect clients "with a supportive circle of people who have shared experiences—an option that may have particular relevance given feelings of isolation and fear that may accompany a mental health crisis."

Wellness Recovery Action Planning (WRAP)

Peer professional staff will work with clients on crisis planning and prevention using elements of Wellness Recovery Action Planning (WRAP). Recognized by SAMHSA as an evidence-based practice, WRAP offers self-help techniques for monitoring and responding to symptoms so that they can achieve the highest possible levels of wellness, stability, and quality of life. In peer staff-facilitated WRAP groups, clients will develop a self-designed plan for staying well, including a personalized crisis plan.

Trauma Informed Care

Staff will be sensitive and responsive to the vulnerabilities of trauma survivors and deliver trauma-informed care to avoid inadvertent re-traumatization while empowering clients to collaborate on these services. Consistent with our trauma-informed approach, we will incorporate Seeking Safety groups geared to the needs of individuals with histories of PTSD and substance use disorders. These groups focus on psychoeducation (understanding the connection between substance use and trauma) and skills. Describe the services here:

Motivational Interviewing, which is a SAMHSA-recognized evidence-based practice will be utilized to promote positive behavioral change. Motivational Interviewing uses an open and neutral style of inquiry and active/reflective listening to explore the discrepancy between current behaviors and desired outcomes.

Cognitive Behavioral Therapy (CBT) will also be employed to address observed mistakes in thinking (thought disturbance, delusions, and hallucinations). The client will be coached in how to become aware of one's thoughts or beliefs (catching the thought), test the accuracy of a thought or belief (checking the thought), and think about something in a more helpful manner (changing the thought).

Dialectical Behavioral Therapy (DBT)

Techniques from Dialectical Behavioral Therapy (DBT) will also be employed to address observed emotional dysregulation and pervasive patterns of destructive interpersonal interaction. Clinical staff will help clients use thoughts and feelings in combination to apply a "wise-minded" approach to deciding how to behave in different scenarios. DBT will be provided in group settings to support with building coping skills for individuals during their short stays.

Recovery-Centered Clinical System

Telecare's signature Recovery-Centered Clinical System (RCCS), which is based on the premise that every person can recover from mental illness, is woven into every aspect of our programs. In contrast to more traditional CRT providers that focus primarily on symptom control and behavior management, we integrate our recovery philosophy into every aspect of our

CRT services—from assessments and interventions, to the physical environment, the selection of staff, and the program culture. This approach has proven highly effective in engaging clients who may enter the program with a diminished sense of hope—motivating them to participate in program services, follow through with their ongoing care once they are discharged, and ultimately move toward greater self-determination.

Serving Individuals with Alcohol and Drug Problems

Clients will be admitted with substance use issues that factored into their mental health crisis. Program staff will have substance use training and expertise to provide specialized services and interventions related to co-occurring substance use issues. This includes Telecare's Motivational Interviewing (MI) and Screening, Brief Intervention, Referral to Treatment (SBIRT) protocol and Co-Occurring Education Group (COEG). MI-SBIRT includes scripted tools staff can use with clients to better understand the type and severity of substance use issues present, provide education, and enhance motivation to change substance use patterns. As a complement to MI-SBIRT, we will also offer COEG, a manualized, psychoeducational approach developed by Telecare that incorporates materials from our RCCS framework and SAMHSA. COEG fits well within the CRT setting by targeting individuals in the Pre-Contemplative to Contemplative Stages of Change.

Serving Individuals with Co-Occurring Physical Health Disorders

Telecare has extensive experience working with clients who have critical health conditions such as diabetes, asthma, COPD, high blood pressure, etc. All Contractors direct service staff and program clinical leadership will receive Whole Person Care training to ensure that all direct care staff are prepared to promote conversations about overall health and wellness.

The Brief Negotiated Interview (BNI) intervention will be used to help clients address chronic health conditions and improve their overall health and wellness. Originally developed for medical settings, BNI uses MI techniques to enhance motivation for a variety of positive behavior changes in a brief period of time, making it especially relevant for our short stay CRT setting. Using scripted tools, our staff will use BNI to explore behavior change with clients in a respectful, non-judgmental way, eliciting reasons for change and action steps from the client. Telecare's Clinical Training Department has developed a number of BNI trainings addressing such physical health issues as diabetes, high cholesterol, and weight management which we can leverage at our CRT.

Working with Families of those Served

With the client's consent and agreement, Serenity House staff will engage family, family of choice, other supports, and external providers to gain insight into issues important to the client and to collaborate on how service

delivery can best integrate the needs and interests of the family. As part of intake and unless clinically contraindicated, staff will ask the client to sign a release that will allow staff to include family members in the service planning process. This will ensure that planning for the client's discharge and ongoing recovery takes into account the full resources and strengths of the family, helps family members to identify early warning signs of illness, and includes family members in proactively planning for potential crises. It can also help the client build social and communication skills that improve family relationships and develop family members as critical natural supports. Family members will be provided assistance with coping skills, education around mental illness and the system of care, and connections to grassroots family support and advocacy groups such as NAMI and local community-based providers. Connections to such resources at the time of admission will enable family members to learn how to work in partnership with the client's recovery process during their time at the CRT and after discharge.

Meals and Nutrition

On-site program staff will order the food (for example from Costco) and oversee the provision of meals and snacks, typically led by the Residential Counselor. Breakfast and lunch will consist of items appropriate for assembly/preparation by clients (e.g. cereal, oatmeal, sandwiches), and dinner preparation will be a group activity coordinated by staff with the full involvement and participation of clients.
