

WRAPPING THE WORLD IN PEACE

We live in unprecedented times.

Times where a virus has broken boundaries and got us to realize that we are only human.

Governments and people are joining hands to fight the pandemic.

Yet, the world remains divided

The power lies in our hands to make this world a better place, leaving no one behind.

The Peace Flag project works with the Sustainable Development Goal 16- Peace, Justice and Strong institutions.

The City Council of Half Moon Bay California passed the Peace Resolution in September 2020

The Flag connects 193 countries.

Flags collected from countries around the world will join the main flag, to be displayed annually at the United Nations, on the International Day of Peace.

As the flag continues to grow, every Art work and person becomes a part of its history.

Be an Advocate for Peace. Join the Peace Flag
