Re: Analysis of Salary Increases - October 22, 2024 Board Agenda

Dear Scott:

California Government Code Section 31515.5 requires a notice be provided of the estimated financial impact that proposed benefit or salary increases would have on the funding status of the County's retirement system, administered by SamCERA. We understand that the San Mateo County Board of Supervisors will consider salary increases for a single employee that are in addition to regularly scheduled annual increases. The purpose of this letter is to provide information to assist the Board of Supervisors to satisfy the notice requirement regarding items included in the Board Agenda on October 22, 2024.

Estimated Financial Impact

The employee is an active member of General Plan 7 and currently receives compensation in excess of the PEPRRA Compensation Limit for 2024 under Government Code Section 7522.10. Since compensation in excess of the PEPRRA Compensation Limit is disregarded in the calculation of individual benefits and the funding of SamCERA, it is our understanding that any additional compensation received by such individuals will not result in increased retirement benefits. Therefore, there is no increase in Actuarial Accrued Liability or Statutory Contribution Rates due to this increase in compensation.

Certification

Except as noted elsewhere in this letter, all data, methods, assumptions, and plan provisions are consistent with those described in the June 30, 2024 actuarial valuation. We have assumed that these salary increases would not affect future member behavior. All statements of reliance and limitations on use described in that report also apply to this work product.

The actuarial computations presented in this letter are for the specific purpose described in this letter. Determinations for other purposes may be significantly different from the results contained in this letter. Accordingly, additional determinations may be needed for other purposes. These computations are subject to the uncertainties of a regular actuarial valuation; the costs are inexact because they are based on assumptions that are themselves necessarily inexact, even though we consider them reasonable. Thus, the emerging costs will vary from those presented in this letter to the extent actual experience differs from that projected by the actuarial assumptions.

This work product was prepared solely for SamCERA for the purposes described herein and may not be appropriate to use for other purposes.
Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.
Milliman recommends that third parties be aided by their own actuary or other qualified professional when reviewing the Milliman work product.

Future actuarial measurements may differ significantly from the current measurements presented in this letter due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the retirement system, and changes in plan provisions or applicable law. Due to the limited scope of our assignment, we did not perform an analysis of the potential range of future measurements.

Milliman's work is prepared solely for the internal business use of SamCERA and San Mateo County. To the extent that Milliman's work is not subject to disclosure under applicable public records laws, Milliman's work may not be provided to third parties without Milliman's prior written consent. Milliman does not intend to benefit or create a legal duty to any third-party recipient of its work product.

No third-party recipient of Milliman's work product should rely upon Milliman's work product. Such recipients should engage qualified professionals for advice appropriate to their own specific needs.

The consultants who worked on this assignment are actuaries. Milliman's advice is not intended to be a substitute for qualified legal, investment or accounting counsel.

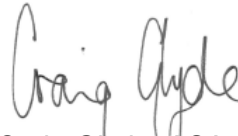

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this cost projection letter is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board and the Code of Professional Conduct and Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States, published by the American Academy of Actuaries. We are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Please let us know if you have any questions.

Sincerely,

Nick Collier, ASA, EA, MAAA
Consulting Actuary
