Explain in more detail why it is in the best interest of the County to amend this contract beyond three years:

The Department of Public Works entered in to an on-call, 3-year contract with Moore Iacofano Goltsman, Inc. Towards the tail end of the contract, task orders for environmental consulting services were issued for the San Mateo Medical Center Campus Project and the County Government Center project. Both projects are multi-year construction projects.

It would be beneficial for the County of San Mateo to extend the current contract with Moore Iacofano Goltsman, Inc. to allow them to complete the tasks they are working on. Changing service providers in the middle of a task would create issues with the project, as a new service provider would need time to familiarize themselves with the specific details of the project, figure out where the previous service provider left off, and determine a future course of action. The opportunity costs associated with selecting a new service provider are greater than any potential monetary savings.
