Dear San Mateo County Board of Supervisors,

At the September 22, 2021 meeting of the Midcoast Community Council, councilmembers voted (6-0) to forward the attached petition to the Board of Supervisors.

More than 500 residents of El Granada signed the petition, which was organized by constituent Keith Mangold.

Please let me know if you have any questions.

--

Michelle Weil  
Chair, Midcoast Community Council

To: San Mateo County Board of Supervisors - Quarry Park Threat Petition

To: San Mateo County Board of Supervisors - Quarry Park Threat Petition

We, the undersigned, believe that our community is at serious risk of being destroyed, due to the threat of a eucalyptus canopy fire originating in, or near Quarry Park. While CalFire can stop brushfires and building fires, canopy fires are above the range of ground equipment. Because canopy fires are not controllable from ground operations and aerial operations are only viable during daylight hours with low smoke conditions, the only safe solution is to remove the canopy of the mature trees, a strategy that is being pursued vigorously in the East Bay Hills.

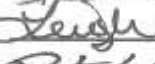

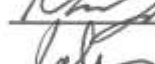

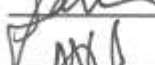

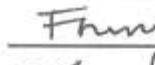

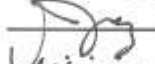

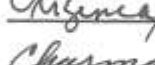

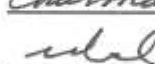

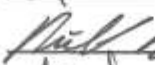

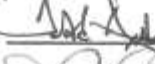

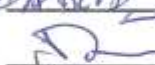

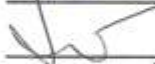

San Mateo County is the owner of the eucalyptus trees creating this threat to our community. Quarry Park contains mature eucalyptus that are an increasing threat as the fire seasons get longer, hotter, windier and drier. While individual landowners are greatly reducing the threat to their properties by removing mature trees, San Mateo County has not followed suit. Fire insurance rate hikes and cancellations are increasing.

CalFire priorities for fighting fires are based first on saving lives, secondly on saving structures where reasonable. SMC Parks criteria for fuel reduction ignores human lives and spreads funds throughout the park systems without regard to fire hazards or insurance cancellations. We are therefore faced with the continuing prospect of a huge destructive firestorm with virtually no local medical facilities and few evacuation routes.

It is time for San Mateo County to make El Granada safe by removing the mature eucalyptus trees at Quarry Park.

To: San Mateo County Board of Supervisors - Quarry Park Threat Petition

We, the undersigned, believe that our community is at serious risk of being destroyed, due to the threat of a eucalyptus canopy fire originating in, or near Quarry Park. While CalFire can stop brushfires and building fires, canopy fires are above the range of ground equipment. Because canopy fires are not controllable from ground operations and aerial operations are only viable during daylight hours with low smoke conditions, the only safe solution is to remove the canopy of the mature trees, a strategy that is being pursued vigorously in the East Bay Hills.

San Mateo County is the owner of the eucalyptus trees creating this threat to our community. Quarry Park contains mature eucalyptus that are an increasing threat as the fire seasons get longer, hotter, windier and drier. While individual landowners are greatly reducing the threat to their properties by removing mature trees, San Mateo County has not followed suit. Fire insurance rate hikes and cancellations are increasing.

CalFire priorities for fighting fires are based first on saving lives, secondly on saving structures where reasonable. SMC Parks criteria for fuel reduction ignores human lives and spreads funds throughout the park systems without regard to fire hazards or insurance cancellations. We are therefore faced with the continuing prospect of a huge destructive firestorm with virtually no local medical facilities and few evacuation routes.

It is time for San Mateo County to make El Granada safe by removing the mature eucalyptus trees at Quarry Park.

**From:** Susan Cortopassi, Executive Director [suesmcca@gmail.com](mailto:suesmcca@gmail.com)  
Behavioral Health and Recovery Services Contractors' Association of San Mateo County

**Date:** Monday, September 27, 2021

**To:** San Mateo County Board of Supervisors and County Manager, Mr. Mike Callagy

**Subject:** Written public comment for September 28, 2021 – Agenda Item Number 1/Fiscal Year 2021-22 budget

---

**Written public comment:**

The Behavioral Health and Recovery Services Contractors' Association of San Mateo County is comprised of 23 nonprofit member agencies working in partnership with the Behavioral Health and Recovery Services department. Our member agencies provide comprehensive supports to the community through the provision of essential health and recovery services, informing public policy, advocating for access to prevention and wellness services for all.

Our membership represents 900+ staff that provide mental health, substance use disorder treatment, housing, education, expressive arts, community-based and crisis intervention programs and services to more than 16,000 residents of all ages each year.

The COVID-19 pandemic has had a major impact on the capacity of our health care system to continue the delivery of essential health services. While demand for services has increased, our members have skillfully kept their doors open and adapted to meet the needs of the community. Our nonprofit community-based organizations have been working tirelessly to address the needs of our most vulnerable populations.

Some of our member agencies created and implemented new services at the request of the county in the face of the global pandemic. For example, El Centro de Libertad worked alongside Farmworkers, providing COVID-19 mitigation education and training to help protect themselves, their families and the community. The Mental Health Association of San Mateo County provided over 7,000 individuals and families with financial assistance, allowing them to safely quarantine in hotel rooms after exposure to COVID-19 to help reduce the spread.

As you consider approving the FY21-22 budget, we ask for your continued support in helping us do our work and fulfill our missions. Together, alongside one another, we can help our community respond, recovery, reimagine, and rebuild. An investment in our membership agencies is an investment in our community – everyone in San Mateo County deserves an equal opportunity to thrive.
