

County of San Mateo – County Attorney Review Form

County Counsel must review and approve all contracts over \$100,000 and all contracts where changes are made to the standard contract templates before a contract is executed (for any amount). Review may also be requested for standard agreements under \$100,000. Departments should work with assigned County Counsel to develop their own processes for review and approval. Where review is required, the Department must document approval by County Counsel in some format. In such situations, the Department may use this form, may develop its own review form, or may attach an email or other correspondence to show County Counsel approval.
