- As Supervisor Canepa mentioned, we've been encouraged to produce a 2<sup>nd</sup> documentary with focus on Hope & Healing for DV survivors
- Aligned with our County's mission, our focus is on DV trauma, healing and to break the cycle of generational abuse
- As with the 1<sup>st</sup> film, this documentary is totally free of any charges to all recipients throughout the SM County and beyond
- We've partnered with Physicians & Therapists at Kaiser and Dignity Health who are directly involved with DV trauma, hope & healing
- We'll continue to work with our law enforcement, DA office, SM Office of Education , CORA, etc.

- As a brief background, this nonprofit started as a result of a horrific tragedy with the mission of DV prevention and helping the victims. We work with local resources to avoid duplicate efforts
- Our board consists of professionals from the San Mateo County, local police department, and retired veterans
- Foundation's operating costs are minimal (i.e., liability insurance, website hosting, etc.). All members are volunteers with no compensation
- I'd like to extend my utmost appreciation to this executive council and especially Supervisor Canepa for the support and attention to our work
