Codes & Standards Program

The **Codes and Standards** program promotes an integrated, measurement-driven management process for enhancing energy code compliance. Members will assist with local trainings, regional forums and compliance assessment. The program’s goals include:

- Examine existing energy code compliance rates in the Bay Area
- Assist in the creation and sharing of best practices for increasing compliance with Energy Code and Green Building standards
- Direct Bay Area building professionals to existing trainings and create additional trainings where gaps exist
- Promote “reach codes” that strengthen local agency efforts to improve energy efficiency standards and encourage greater use of renewable and sustainable materials in building construction

BayREN trainings are designed to educate both local officials and the private sector building community in key aspects of code compliance and enforcement. Training topics are offered as a series and each training series addresses specific energy code compliance strategies and best practices. Trainings can be delivered as one 60-90 minute Short Course or as a 3-4 hour Long Course.

Financing Programs

Commercial Property Assessed Clean Energy (PACE)

Property Assessed Clean Energy was first piloted in the City of Berkeley in 2008 as a way to help property owners install more clean energy projects, such as high efficiency HVAC and solar panels, by overcoming the high "first-cost" barrier. PACE programs allow qualified property owners in a community to obtain affordable, long-term financing for energy efficiency, renewable energy, and water conservation improvements, and repay it through their secured property tax bills. The PACE structure builds on decades of land-secured financing experience and provides security to project investors, enabling easy access to capital at competitive rates and longer payment periods than traditional loans.

PACE also offers many advantages over other types of financing for clean energy projects:

- PACE is a customer-oriented program, with an emphasis on quality projects, highly trained contractors, and unique consumer protection measures.
- If a property owner has a positive payment history for the mortgage and property taxes, and has equity in the property, they probably qualify for PACE.
- Application processes are simple and straightforward, and approvals are quick.
- Under State law, a PACE assessment automatically stays with the property upon transfer of ownership.

Financing Programs

Pay As You Save (PAYS)

The BayREN PAYS® (Pay As You Save®) program is a joint effort of Bay Area cities and counties and their water agencies to partner in the implementation of a unique on-bill program that allows municipal water utility customers to pay for efficiency improvements through a monthly charge attached to their meter, with no up-front costs and the assurance that their utility bill savings will exceed the program charge.

PAYS on-bill programs certify contractors and products to deliver projects that will produce enough customer bill savings to cover the costs of installation, capital, and program management. An independent Program Operator typically supports the Utility with Contractor oversight and project quality assurance activities to ensure proper measure installation and provide for data tracking and reporting. The Utility may use internal resources, or a third-party Capital Provider, to fund the up-front costs of measures. All program costs are paid back over time by the Customer.

With PAYS, utilities can rapidly increase customer participation in resource efficiency programs with minimal cost and risk to the utility. PAYS can help utilities:

- Serve all types of customers (single and multifamily, commercial, and municipal)
- Increase program effectiveness to meet or exceed program goals
- Free up existing rebate funds so they can be used for more strategic purposes

Financing Programs

Multifamily Capital Advance

Multifamily property owners can access zero percent interest capital to make energy efficiency improvements to multifamily buildings located within the Bay Area. The BAMCAP program works collaboratively with its customers and Participating Lenders to establish the appropriate collateral structure for each transition. Each Participating Lender has a different minimum loan amount.

The program’s share of the financing is limited to no more than 50% of the cost of the approved scope of work minus any program incentives. In addition, the share of the financing is up to \$5,000 per unit or \$500,000 per project, whichever is less.

In order to benefit from BAMCAP, your lender must agree to participate in the program. The program consultants will work with you to develop a qualifying scope. Scopes that qualify for the BAMBE cash rebate or for PG&E's Multifamily Upgrade Program will qualify for this financing offer.
