RESOLVED, by the Board of Supervisors of the County of San Mateo, State of California, that

WHEREAS, on February 12, 2008, this Board adopted Resolution No. 069259, which approved the Engineer's Report concerning improvements including slope stabilization and the reconstruction of Scenic Drive in La Honda. The Resolution also declared the intention of this Board to form an assessment district and to assess parcels within the proposed district for a portion of the cost of improvements; and

WHEREAS, on April 22, 2008, this Board adopted Resolution No. 069359, which authorized the work to complete the formation of the La Honda Landslide Assessment District and the imposition and levying of the assessments to finance the cost of constructing soil stability improvements and reconstructing Scenic Drive and ordered the proposed improvements; and

WHEREAS, on April 22, 2008, this Board also adopted Resolution No. 069360, which authorized the execution of a contract with Soil Engineering Construction, Inc. (SEC) for the final design and construction of the slope stability improvements within the

WHEREAS, on June 29, 2009, SEC completed the construction of the slope stability improvements within the La Honda Landslide Assessment District. Following the heavy rains of the 2010-11 winter , a portion of the area where Scenic Drive is to be reconstructed showed signs of settlement; and

WHEREAS, Department staff did not recommend moving forward with the reconstruction of Scenic Drive until there was adequate assurance that additional soil settlement would not affect the proposed roadway; and

WHEREAS, on October 2012, the Department's geotechnical consultant submitted a report that concludes that the current slope configuration is stable following the dry winter in 2011-2012, however, soil movement could re-activate if groundwater levels rise following a period of above average rainfall; and

WHEREAS, Department staff believes that it is appropriate to move forward with the reconstruction of Scenic Drive; and

WHEREAS, Department staff, in consultation with County Planning Department and County Counsel has determined that minor changes to the project description for

the road work does not generate new impacts and the 2008 negative declaration is still valid; and

WHEREAS, the plans and specifications, dated July 5, 2013 have been prepared and approved by the Director of Public Works for the reconstruction of Scenic Drive in the La Honda Area Project, and said plans and specifications have been filed in the office of the Director of Public Works (the “plans and specifications”); and
