From: James C. Porter, Director of Public Works

Subject: San Mateo Medical Center Regulatory Compliance Boiler Burner Retrofit

RECOMMENDATION:

Adopt a Resolution authorizing an agreement with San Jose Boiler Works to provide regulatory compliance boiler retrofit services at San Mateo Medical Center, for the term of September 9, 2014 through June 30, 2015, in an amount not to exceed \$159,767.50.

BACKGROUND:

The Bay Area Air Quality Management District (BAAQMD) adopted regulations in 2008 intended to reduce emissions of nitrogen oxides (NOx) from natural gas-fired boilers, steam generators and process heaters. The Department of Public Works (Department) staff determined two water heating boilers at the SMMC central plant must be retrofitted for compliance with BAAQMD regulations.

DISCUSSION:

Department staff completed a formal Request for Proposals (RFP) process and selected San Jose Boiler Works to provide regulatory compliance retrofit services. The RFP matrix summarizing the process is attached.

The Department also requests that your Board authorize the Director of Public Works or his designee to execute subsequent amendments which do not exceed an aggregate of \$25,000.

The contractor has assured compliance with the County's Contractor Employee Jury Service Ordinance, as well as all other provisions that are required by County ordinance and administrative memoranda, including but not limited to, insurance, hold harmless, non-discrimination and equal benefits.

County Counsel has reviewed and approved the Resolution and Agreement as to form.
