Exhibit D

Clarity Human Services Secure Confidential and Private County System Usage and Data Sharing for the Core Service Agencies and Homeless Service Providers

Background

Core Service Agencies

The San Mateo County Human Services Agency (HSA) contracts with eight Core Service Agencies in San Mateo County (the County) to work in tandem to provide basic emergency and support services to County residents who live in poverty.

Since 1999, the Core Service Agencies have used a flat Access database to record and track the services they provide. This Access database was a standalone database within each Core Service Agency. One Core Service Agency utilized the Efforts to Outcomes system to capture client data. One challenge in using these tools was that each Core Service Agency calculated performance results, and therefore community needs, differently. The County and other funders need accurate, unduplicated, synthesized data in order to evaluate and understand safety net needs. To achieve this, the County has implemented a new, Secure, Private, Client Centric and Centralized system by Bit Focus (the vendor), called Clarity Human Services (Clarity). Clarity went live on July 1, 2014. Set-up costs and subscriber licenses for 2 years were paid for with the Measure A funding.

Homeless Service Providers

Since 2005, HSA has administered the HOPE (Housing Our People Effectively) web based system, serving as the County's Homeless Management Information System (HMIS), which records, stores, and aggregates information regarding the County's homeless population. Currently there are approximately 200 active users on the HMIS. They include county staff, trusted contracted providers of homeless, housing, and behavioral health and recovery services.

On May 1, 2014, three federal agencies, (Department of Housing and Urban Development (HUD), the Department of Health and Human Services (HHS) and the Department of Veterans Affairs (VA)), jointly released the 2014 HMIS Data Dictionary and 2014 HMIS Data Manual. These materials updated the HMIS Data Standards, which provide for standardized data collection on homeless individuals and families across systems and communities. Compliance with the new data standards must occur by October 2014.

In order to ensure compliance with these new requirements, HSA amended its contract with BitFocus to expand its current Core Agencies secure user base to include providers of homeless prevention services. The go live date for the HMIS users onto the Clarity Human Services system is November 17, 2014.

The County will use the Clarity Human Services Secure Confidential and Private County System across all Core Agencies and the HMIS agencies. This strategy optimizes the utilization of tax payer funds by providing a secure client-centric system with its mission as service to needy clients, protecting clients' privacy, improving and measuring outcome across the Continuum of Care.

Commitment to Data Entry

The Core Service Agencies and Homeless Service Providers agree to timely enter into the Clarity's secure system accurate data about the clients to whom they provide safety net services pursuant to their contracts with the County. Timely entry of this data is crucial to the Core Agency/Homeless Service Providers' ability to refer clients to other providers, report accurate performance measures and to capture data on community need.

All Core Service Agencies have access to the same Performance Measurement Report in their Clarity Report Libraries.

The HSA team will run the same Performance Measurement Reports each quarter.

Core Service Agencies must be prepared to have their performance reports run two weeks after the end of the quarter in the fiscal year. This will provide the opportunity to review and validate data being reported in the Clarity system prior to County reporting.

It should be noted that the County may run reports on the aggregate data for the individual and Core Agency Network at any time.

All reports in Clarity Report library are ready to run. The users will click each report to run.

In addition, the Clarity Report Libraries allow each agency to run reports for their own agency's operations and reports to meet their internal reporting needs.

Reports for Homeless Service Providers that are HUD-based will be reviewed and confirmed with the HMIS workgroup.

Method of Data Transfer

Bit Focus, the vendor, has established specific safeguards to assure the confidentiality and security of individually identifiable client records. Identifiable records are encrypted and transferred electronically through the Internet.

Confidentiality of Client Data

Core Service Agencies and Homeless Service Providers will establish appropriate administrative, technical, and physical safeguards to protect the confidentiality of the data and to prevent unauthorized use or access to it.

The data input into Clarity shall not be disclosed, released, revealed, showed, sold, rented, leased loaned, or otherwise have access granted to it except by the minimum number of individuals necessary to achieve the provision of homeless and safety net services or for the analysis of the data to show performance measurements, including that of contract compliance.

Summary results can be shared. Summary results are those items which cannot be used to identify an individual. Data that contains identifying information will be accessible and shared on a need-to-know basis only, and only to the extent permitted by applicable law. HSA may receive summary results in the context of contract monitoring and the validation of performance measurements and other Clarity reports.

To authorize the parties to this Agreement to share individually-identifiable client information, clients who are entered into the system must sign a Client Consent Form that will be kept with their records in Clarity. However, if a client refuses to sign a release, services will not be denied. The release must let the client know that partner agencies in San Mateo County will have access on a need-to-know basis to their records in the secure system.

System Costs

Data is entered and accessed by Core Service Agency and Homeless Service Provider staff. Licenses have been provided at the County's expense for the purpose of go-live. Post go-live, if additional licenses are needed by a Core Service Agency or Homeless Service Provider; those licenses must be purchased at the expense of the Requesting Agency.

All new staff requiring Clarity licenses must complete the on-line training.

An estimate will be provided to the requesting agency/organization for cost related to on-line training, along with cost of the licenses.

A comprehensive audit trail is available in Clarity that shows individual user activity as well as the lack of activity. If any license goes unused for more than 90 days, that license will be reassigned to an agency that has an active user. The Requesting Agency will be notified prior to deactivation of the license and the agency will have 5 business days to respond with a request if the license is to be continued.

All agencies Change Requests (CR) will be evaluated by an HSA Change Control Committee. Payment shall be made by the requesting agency to HSA for the cost of all Change Requests (CRs) unique to that agency and for non-core or non-HMIS standard programs.

User Support

If a Core Service Agency or Homeless Service Provider experiences any technical difficulty with the system, they will follow the official Support Document and its process. If an authorized user separates from employment with a Core Service Agency or Homeless Service Provider, notification must be made via a support ticket to the HSA Services desk as per the support process. The ticket shall request termination of the user's rights within 24 hours of an employee leaving employment to terminate access to the Clarity account. The license will be held for the agency for 90 days, and if not reassigned by that agency, will be reassigned to an agency that has an active user. The Requesting Agency will be notified prior to deactivation of the license and the agency will have 5 business days to respond with a request if the license is to be continued.

If a new program is introduced by the County and the County contracts with the Core Service Agencies and Homeless Service Providers to provide additional services, that program, its eligibility criteria and performance reporting will be added to the Clarity system by filing a Change Request and submitting that to the HSA Service Desk.

Contractor/Service Provider Agreement

The County Core Service Agencies and SMC Homeless Service Providers are now a cohesive client-centric, unified, secure and private network with the joint mission of serving San Mateo County residents who are in need of safety net and shelter services.

The County's secure and private network will be used for accessing the Clarity system. A Master Client List, a Master Program and Services List, and unified business architecture enable the same client to obtain services and shelter anywhere in the County. This will allow clients to be referred between Core Service Agencies and County shelters and it will eliminate the need for a client to repeat his or her credentials and circumstances between agencies that are part of this Agreement.

The Core Service Agencies and County Homeless Service Providers agree to train their staff and to establish internal processes and procedures to ensure all staff and volunteers safeguard clients' confidentiality and privacy. It is understood that accessing the Clarity's secure, private and confidential network is for the sole purpose of serving clients. All authorized individuals accessing the Clarity network of Core Service Agencies and Shelters must have a legitimate business reason when searching and accessing information. All activity is logged and monitored and participating agencies understand and agree that this audit trail can be viewed at any time by authorized County personnel.

Unreasonable and unwarranted access unrelated to a legitimate business purpose by staff or volunteers by a Core Service Agency or Homeless Service Provider violates the trust of the contracted partner agencies. Such activities will not be tolerated and may result in revocation of access rights and reports to management and the County. Such violations may also be referred to the District Attorney for investigation into possible criminal charges
