Exhibit A, A02
HIV Care Program and Minority AIDS Initiative
Scope of Work, Year 3

I. Introduction

1. Mission Statement

The goals of the California Department of Public Health, Office of AIDS (CDPH/OA) are: (1) to minimize new HIV infections and (2) to maximum the number of people with HIV infection who access appropriate care, treatment, support, and prevention services. The services required by the HIV Care Program (HCP) and Minority AIDS Initiative (MAI) Scopes of Work (SOWs) in this Memorandum of Understanding are consistent with, and are designed to support, these goals.

2. Service Overview

CDPH/OA utilizes federal Health Resources Services Administration (HRSA) funds to provide support for HIV/AIDS services in local areas. Federal HRSA funds include Part B and Minority AIDS Initiative funding. HIV care services are funded using a Single Allocation Model to consolidate HRSA program funds into a single contract in each local health jurisdiction or service area.

Through this single contract, the Contractor agrees to administer (A) **HCP** and, if applicable, (B) **MAI Outreach and Treatment Education Services**.

- A. The Contractor agrees to administer HCP and to ensure the provision of the HIV care services as described in this SOW. The Contractor may provide direct client services exclusively or subcontract all or part of the client services. The Contractor ensures that, if all or parts of the client services are subcontracted to other client service providers, all services provided by the subcontracted agency will be in accordance with HCP.
- B. If funded, the Contractor agrees to administer the MAI outreach and treatment education services focused on providing access to, and engagement in, medical care for HIV-positive persons of color, including access to AIDS Drug Assistance Program (ADAP), Medi-Cal, or other appropriate program

II. HIV Care Program

1. HCP Services

The HIV medical and support care services must be provided under specific HRSA-defined service categories. For a listing of HRSA service category definitions, and the specific services included in each category, please refer to the HRSA website at www.hab.hrsa.gov. Additional information can be found in the *HCP and Budget Guidelines*.

CDPH/OA will not require local utilization of HRSA's "75 percent (Core services) / 25 percent (Support services)" requirement for prioritization of services.

Exhibit A, A02
HIV Care Program and Minority AIDS Initiative
Scope of Work, Year 3

HCP is a two-tiered approach to service prioritization and delivery and utilizes the HRSA-defined service categories, both the Core and Support service categories.

HCP prioritizes service provisions as follows:

Tier One: *Outpatient/Ambulatory Medical Care*, as defined by HRSA. Services include, but are not limited to, primary medical care, laboratory testing, medical history taking, health screening, and prescribing and managing medications. Contractors must ensure that Tier One medical services are provided for all population groups in their geographic region via all HIV/AIDS or other funding sources before allocating HCP funds to Tier Two services.

Tier Two: HRSA-defined Core and Support service categories that (1) assist with access to Tier One care, (2) support maintenance in Tier One care, and (3) reduce the risk of treatment failure and/or HIV transmission. HCP funds may be allocated for any Tier Two service only after Contractors have ensured and documented that Tier One services are adequately provided in their geographic region via all HIV/AIDS or other funding sources.

The following HRSA service categories are included in Tier Two of HCP:

- | | |
|--|---|
| ▶ <i>Mental Health Services</i> | ▶ <i>Legal Services</i> |
| ▶ <i>Medical Case Management Svcs</i>
<i>(includes Treatment Adherence)</i> | ▶ <i>Treatment Adherence Counseling</i> |

A. The Contractor shall:

1. Provide comprehensive, ongoing medical services to individuals with HIV/AIDS. Services must be based on HRSA Core Services which include the HRSA service category, *Outpatient/Ambulatory Medical Care* or, if these services are not funded by HCP under Tier One, the Contractor must demonstrate and document the availability of primary medical care for HIV-infected persons within each population group in the service area.

Exhibit A, A02
HIV Care Program and Minority AIDS Initiative
Scope of Work, Year 3

2. Provide Tier Two services as necessary, and as funds permit, to ensure access to care, maintenance in care, and reduce the risk of treatment failure or HIV transmission.
3. Develop and implement a comprehensive system of care and support services that actively engages individuals who know their HIV status but are not accessing services, that reaches out to people who are HIV positive but unaware of their HIV status, and that is coordinated and integrated with other service delivery systems as appropriate.
4. Advisory and/or focus groups will meet at least **annually** to provide input to the Contractor on issues such as needs assessment, service delivery plans, and comprehensive planning. The Contractor shall maintain minutes and/or documentation of the advisory or focus group meetings.

The advisory and/or focus group, should be made up of representatives from state, federal, and local programs that provide health services and education and prevention services; non-profit and for-profit community-based agencies; staff from other key points of entry into medical care, who either provide services to individuals with HIV/AIDS, or who may have contact with HIV positive individuals who are not in care or not aware of their HIV status; individuals with HIV, and their advocates, etc. The advisory group provides information to the Contractor regarding health services delivery and the needs of individuals with HIV/AIDS living within the community.

5. Ensure the protection of the client's privacy and confidentiality at all times. In addition, federal law requires that individuals have a right of access, to inspect, and obtain a copy of their Protected Health Information (PHI) in a designated record set, for as long as the health information is maintained by a CDPH health plan, CDPH providers, or business associates. There are limited exceptions to an individual's right of access PHI (45 C.F. R. s 164.524).
6. Ensure that any subcontracted agencies have the organizational and administrative capabilities to support the program services and activities. The Contractor is responsible for quality assurance and utilization review activities for subcontracted HIV care services.
7. Ensure that any subcontracted agencies have appropriate facilities and resources, including an adequate physical plant and appropriate supplies and equipment available for the provision of services and practical support functions.
8. Develop and maintain working relationships, and coordinate an integrated system of service delivery, with entities who provide key points of entry into medical care, including but not limited to emergency rooms,

Exhibit A, A02
HIV Care Program and Minority AIDS Initiative
Scope of Work, Year 3

substance abuse treatment programs, detoxification centers, adult and juvenile detention facilities, California Department of Corrections and Rehabilitation, Transitional Case Management Program (TCMP) for incarcerated populations, sexually transmitted disease (STD) clinics, HIV counseling and testing sites, mental health programs, homeless shelters, health care points of entry specified by the State, federally qualified health centers, migrant health centers, community health centers, health services for the homeless, family planning grantees, comprehensive hemophilia diagnostic and treatment centers, and non-profit and for profit private entities that provide comprehensive primary care services to populations at risk for HIV. The coordinated, integrated system of care must be informed by HIV epidemiological data and other data sources and should include leveraged resources. The Contractor shall keep documentation of these working relationships.

9. Ensure case management services that link available community support services to appropriate specialized medical services shall be provided for individuals residing in rural areas as appropriate.
10. Ensure HIV care services will be provided in a setting that is accessible to low-income individuals with HIV disease. Facilities must also be accessible for hearing-, vision-, and mobility-impaired persons in accordance with the federal Americans with Disabilities Act (ADA).
11. Provide targeted prevention coordinated with all state and federal programs to low-income individuals with HIV disease and to inform such individuals of the services available under Ryan White Part B.
12. To the maximum extent practical, ensure that HIV-related health care and support services delivered pursuant to a program established with assistance provided under Ryan White Part B will be provided without regard to the ability of the individual to pay for such services and without regard to the current or past health condition of the individual with HIV disease.
13. Ensure services provided to women, infants, children, and youth are tracked and reported (see Data Collection, subheading F).
14. Ensure that services provided under this contract are in accordance with the program policy guidance issued by Division of Service Systems (DSS), HIV/AIDS Bureau (HAB) (see www.hab.hrsa.gov), CDPH/OA's *HCP and Budget Guidelines*.
15. Ensure the Ryan White HIV/AIDS Program funds do not comprise the majority of any subcontracted agency's total budget. Ryan White HIV/AIDS Program funds are intended to provide additional funding to

Exhibit A, A02
HIV Care Program and Minority AIDS Initiative

those areas negatively affected by HIV disease and cannot be used to supplant local HIV-related budgets.

16. Ensure clients are eligible for Ryan White services in accordance with the program policy guidance issued by DSS, HAB (see www.hab.hrsa.gov). Screening and reassessment of client eligibility must be completed and documented every 6 months to determine continued eligibility for Ryan White services.

Ensure policies and procedures classifying veterans receiving VA health benefits as uninsured, thus exempting these Veterans from the "Payer of Last Resort" requirement per Veterans Policy 07-07, Policy 04-01, and Parham Letter 08/04 (see www.hab.hrsa.gov).

17. Ensure no more than ten percent (10%) of the allocation is used for non-direct service functions such as:

18. In addition, ensure that no more than ten percent (10%) of the allocation is used for all subcontracted agencies' non-direct service (administrative) functions without prior written consent from OA.
19. Conduct assessment of HIV/AIDS service needs for the geographic service area at least once every three years. Review and update the assessment annually, if needed. Ensure that no more than five percent (5%) of the allocation is utilized to plan, conduct, and evaluate the needs assessment process. Needs assessment activities may not be billed to CDPH/OA more than once during a three year contract period.
20. Ensure that client service providers who provide Medi-Cal reimbursable services are certified as providers for purposes of Medi-Cal billing (see

Exhibit A, A02
HIV Care Program and Minority AIDS Initiative
Scope of Work, Year 3

www.medi-cal.ca.gov) and have the ability to bill other third-party payers for covered services.

21. Ensure that funds are payer of last resort by ensuring client service providers bill all other third-party payers, including Medi-Cal, before invoicing HCP.
22. Funded service providers should integrate, and work collaboratively, with other such services and coordinate with other available programs (including Medicaid), to ensure continuity of care and prevention of services of individuals with HIV is enhanced.
23. Ensure documentation of written referral relationships with entities considered key points of access to healthcare systems for the purpose of facilitating early intervention services for individuals diagnosed as being HIV positive.
 - a. Work with consortia, service providers, and individuals with HIV/AIDS to identify key points of entry.
 - b. Monitor the use of referral and linkage agreements by funded service providers.
24. Ensure funds are not used on prohibited activities (see www.hrsa.hab.gov) and CDPH/OA's HCP and Budget Guidelines.
25. Prohibit employees from soliciting or receiving payment in kind or cash for the purchase, lease, ordering, or recommending the purchase, lease, or ordering, of any goods, facility services, or items.
 - a. Documentation is required by the Compliance Plan or employee conduct standards that prohibit employees from receiving payments in kind or cash from suppliers and contractors of goods or services.

 - e. Pay for any item or service that can reasonably be expected to be paid under any State Compensation Program, insurance policy, or any Federal or State Health Benefits Program (except for programs related to Indian Health Service);

Client service providers using ARIES should document these encounters on the Basic Medical screen. Client service providers not using ARIES should document these encounters in the client medical records.

D. Reporting Requirements

HCP Contractors are required to submit quarterly financial and narrative reports to OA. Financial Reports are to be submitted with the monthly / quarterly invoices. The HCP Quarterly Narrative Reports are due to OA according to the following schedule:

Reporting Period	Due dates

October 1 – December 31	February 15
January 1 – March 31	May 15
April 1 – June 30	August 15

The quarterly Financial Reports shall include the administrative costs of the Contractor and each subcontracted agency, amount of funds obligated to each subcontracted agency, total expended quarterly by each subcontracted agency, percentage expended for the quarter, and total number of unduplicated clients for the quarter reported.
2. The quarterly HCP Narrative Report is an opportunity for the Contractor to describe their HCP programs, services provided, progress and accomplishments, and to identify any technical assistance needs. The quarterly Narrative Reports shall include, for the quarter reported only, descriptions of the programs, services funded with HCP funds, any general accomplishments within the programs, issues or concerns with the programs and services funded in your county, and any technical assistance and/or training needs of the contractor and/or subcontracted agency.

Scope of Work, Year 3

1. Collect the HCP minimum data set. The HCP minimum dataset includes data elements required by (a) HRSA to complete the Ryan White Program Service Report (RSR), selected HAB Quality Management (QM) indicators, and the Women, Infants, Children, and Youth Report, and (b) CDPH/OA for its development of estimates and reports (i.e., estimate of unmet need for HIV medical care, statewide epidemiologic profile, Statewide Coordinated Statement of Need) and to conduct program activities.
2. Directly enter data into ARIES within two weeks from a client's date of service. Client service providers may import data into ARIES from other data collection systems only if they obtain prior written approval from CDPH/OA; said providers may not use CDPH/OA funds to develop or maintain their import systems.
3. Electronically submit the RSR through HAB's RSR Web Application System. The RSR is comprised of two reports: (1) the Provider Report and (2) the Client Report which contains an XML file with their client-level data. Client service providers must submit their completed RSR to the RSR Web Application System by February 15 each year. The RSR reporting period is January 1 through December 31 of the previous year. Client service providers must check the RSR Web Application System until notified that their RSR has been successfully submitted to HRSA. Client service providers may be contacted by CDPH/OA to resolve any data quality problems (e.g., missing data) with their RSRs.
4. Comply with the policies and procedures outlined in ARIES Policy Notices issued by the CDPH/OA (see www.projectaries.org).

F. Client Service Provider/Subcontracted Agency Reporting Requirements

Comply with the State's timeline to submit to the State a list identifying the names and budget overview of all service provision and subcontracted agencies and total funds available to each Client Service Provider. OA's HIV Care Section will provide the required forms to complete the budget overview and all service provision information. These forms are located on the OA website. Please click on the link to access the current forms at <http://www.cdph.ca.gov/programs/aids/Pages/OAContractFY1112.aspx>

G. Quality Management Program

The Contractor shall:

Exhibit A, A02
HIV Care Program and Minority AIDS Initiative
Scope of Work, Year 3

1. Ensure all client service providers have a QM program in place. The QM program should fit within the framework of the client service providers' other programmatic quality assurance and quality improvement activities. Client service providers may use an existing QM program (e.g., Joint Commission on Accreditation of Healthcare Organizations, Medicaid) or develop their own program. Service providers may add additional program specific or other HAB indicators to their QM plan. The HAB QM Technical Assistance Manual can be accessed at <ftp://ftp.hrsa.gov/hab/QM2003.pdf>. HAB's performance measures Web page also contains a wealth of information, including more detailed descriptions of its performance measures and frequently asked questions (<http://hab.hrsa.gov/deliverhivaidscares/habperformmeasures.html>).
2. Incorporate selected indicators from Groups 1 and 2 of HAB's HIV/AIDS Core Clinical Performance Measures for Adults and Adolescents (also known as HAB QM indicators) into QM programs as CDPH/OA implements selected HAB QM indicators as part of its QM and monitoring program. Specific indicators will be identified and released by OA Management Memorandum. Contractors and subcontracted agencies can monitor their progress in meeting HAB QM indicators for Groups 1 and 2 by using the Compliance Reports in ARIES as appropriate.
3. Please refer to management memorandum 11-01 at <http://www.cdph.ca.gov/programs/aids/Pages/tOAHCPMAIsp.aspx> for more information.

H. Data Encryption

The Contractor shall adhere to the Information Privacy and Security Requirements (Exhibit J). In addition to the procedures set forth in the Information Privacy and Security Requirements exhibit, Contractors must ensure that all mobile devices are equipped with encryption software, even if the Contractor or their subcontracted agencies do not store confidential information on the mobile devices.

III. Minority AIDS Initiative (MAI)

1. MAI Services

Minority AIDS Initiative (MAI) services must be targeted to HIV infected persons of color and must be planned and delivered in coordination with local HIV prevention outreach services to avoid duplication of effort. The goal of MAI is to increase access to, and engagement in, HIV/AIDS medical care for HIV-positive persons of color. This is achieved by providing outreach and treatment education services to HIV-infected persons of color who have never been in care, or who have been lost to care. For additional MAI information, please refer to the *MAI Budget Guidance*.

Exhibit A, A02
HIV Care Program and Minority AIDS Initiative
Scope of Work, Year 3

In accordance with HRSA guidance, OA has defined two MAI service categories, (1) outreach and (2) treatment education. Outreach and treatment education are the only allowable service categories for MAI funding. These service categories are designed to meet the needs of persons of color in order to ensure that minority clients can access, engage in, and remain in care; receive help in adhering to treatment; and be provided with education and support that will enable them to become active participants in their own health care and improve their overall quality of life. MAI outreach and treatment education services are defined as follows:

Outreach – Those activities typically performed by an outreach worker that results in: (1) Identifying HIV-infected persons of color who know their status but have never been in care or who have been lost to HIV medical care; (2) Removing barriers that have prevented access to HIV medical care, and (3) Establishing engagement in HIV medical care. Outreach services should be conducted at times and in places where there is a high probability that persons of color with HIV infection will be reached.

MAI outreach services do not include routine HIV counseling and testing or HIV prevention education. These services may be provided on a case-by-case basis for a specific MAI client only when the service is necessary to remove a barrier to care for that client.

Treatment Education - The provision of health education, treatment adherence and risk reduction information to HIV-infected persons of color who know their HIV status but are not accessing medical care or to HIV-infected persons of color who are lost to care. Information includes educating clients living with HIV about how to communicate with medical providers, the importance of treatment adherence, how to manage medication side effects, how to understand their laboratory results, how to improve their health status, how to reduce HIV transmission, and identify medical and psychosocial support services and counseling that are available locally.

For designated county local health jurisdictions receiving additional HRSA funding specifically for MAI outreach and treatment education services to communities of color, the following services and standards must be adhered to:

1. The Contractor may provide direct client MAI services exclusively OR may subcontract all or part of the MAI outreach services. The Contractor must ensure if all or part of the MAI client services are subcontracted to other service providers, all services provided by the subcontractor will be in accordance with the MAI funding and reporting requirements.
2. The Contractor may employ MAI outreach staff or support other activities to identify HIV-infected persons of color who are out-of-care or lost-to-care and gradually engage them in appropriate HIV care and treatment services. Target populations are those out-of-care, HIV-infected persons of color who have been unable or unwilling to access services for HIV, despite an awareness of their positive serostatus. As a member of the HIV care program team, the outreach

staff person will take actions to reduce or eliminate any cultural or other barriers that prevent access to and/or continued engagement in HIV care services. The Contractor must meet specific parameters to support the needs of this project. The parameters include the Contractor's ability to do the following:

- a. It is strongly recommended that MAI outreach staff be culturally and linguistically competent "street-level" workers who reflect the communities they serve. Highly recommended is experience in two or three of the following areas: street-based outreach, HIV counseling and testing, health education or HIV case management.
- b. MAI outreach staff are to take actions to reduce or eliminate any cultural or other barriers that prevent access to and/or continued engagement in care and treatment services. This individual links and supports the client in accessing suitable HIV care and treatment services.
- c. In lieu of outreach positions, MAI funds can also support outreach/treatment education activities or interventions for HIV-infected persons of color, as determined at the local level and approved by OA.
- d. Commit to submitting data in an accurate and timely fashion, including committing to full participation in any evaluation or research component.
- e. Be able to commit the MAI outreach worker to participate in ongoing staff trainings including but not limited to, attendance at various state-mandated meetings, trainings, Webex/teleconferences or conferences as required.

A. The Contractor shall:

1. Provide services that identify and engage HIV-infected persons of color who know their HIV status but are not accessing medical care, to reach out to persons of color who are HIV-infected but unaware of their HIV status, and/or to locate and reestablish access for HIV-infected persons of color who have been lost to care.
2. Work with existing community resources and entities that serve as key points of entry into medical care, including but not limited to emergency rooms, substance abuse treatment programs, TCMP for those individuals released from state correctional institutions, detoxification centers, adult and juvenile detention facilities, STD clinics, HIV counseling and testing sites, mental health programs, homeless shelters, Federal Qualified Health Centers, etc. to coordinate and integrate HIV care service delivery.

There are limited exceptions to an individual's right of access PHI (45 C.F.R. s 164.524).
10. Ensure any subcontractors have the organizational and administrative capabilities to support the program services and activities. The Contractor is responsible for quality assurance and utilization review activities for subcontracted MAI services.
