EXHIBIT A

Damaged Locations from Storms beginning January 3, 2017 and Continuing (Not a comprehensive list)

May 2, 2017 Board of Supervisors Special Meeting

Location	Incident Period	Damage Description
County Public Works		1
Mirada Road,	Jan 18-25	Road badly damaged by high surf. Asphalt peeled
Miramar		from exist road surface
Mirada Road,	Jan 18- 25	Bluff failure within road right of way on ocean
Miramar		side of the road and loss of road near ped bridge
Entrada Way, La Honda	Feb 3 - 7	Storm conditions rerouted Creek. Storm flows redirected directly towards road bank away from designed flow channel & culvert. Culvert estimated at 14 ft. in diameter. Road at immediate risk and Road Commissioner Authority to close the road would be possible without an immediate response.
Scenic Drive, La Honda	Jan 18 -25	Failed road as a result of winter storms cumulative rains causing significant land movement
		The road is currently closed at Scenic Drive. Alternate routes are narrow and steep and it has not yet been established whether any of those routes are at risk.
Upper Gazos Creek Road	Feb 3-7	Winter storms caused mud flows and tree falls across road
Lower Gazos Creek	Jan 18-25	3 sites – Winter storm flows caused erosion of
Road		creek banks causing road failures. Road
		narrowing to critically narrow widths.
		Temporary closures were required.
Alpine Road, Los Trancos	Feb 3-7	Winter storm rains caused mudslide across road causing road closure
		The road has been opened but is at risk for future closures caused by additional debris flows. The road is the sole access for several homes.
Alpine Trail, Ladera	Feb 3-7	Winter storms caused downed trees, failing trail, water lines, road and sewer line at risk. County infrastructure includes the road and the trail.  Utilities are maintained by other entities.  However utility failures present a significant risk
