STATEMENT OF WORK

This Statement of Work ("SOW") is issued pursuant to the Medical Services Agreement among Kaiser Foundation Hospitals, doing business as Kaiser Permanente Redwood City Medical Center ("Hospital"), The Permanente Medical Group, Inc. ("Medical Group"), and the County of San Mateo (the "County"), and the San Mateo Health Commission, dba Health Plan of San Mateo ("HPSM"), dated November 1, 2013 (the "Agreement"). The County and HPSM are sometimes referred to herein collectively as "Agency". This SOW shall be deemed to incorporate all terms and conditions of the Agreement as if fully set forth in this SOW. Any capitalized term used in this SOW and not otherwise defined herein shall have the meaning set forth in the Agreement.

1. **Effective Date**

This Statement of Work is effective as of November 1, 2013 ("SOW Effective Date").

2. **Patient Eligibility Criteria**

Agency shall ensure that each Patient meets the following eligibility criteria:

Any Patient will be eligible for cranial neurosurgical services provided by Hospital if:

- The Patient presents to the San Mateo Medical Center (SMMC) emergency department; and, in the opinion of the SMMC emergency department physician, the Patient requires a cranial neurosurgical consult.
- The SMMC emergency department physician will then contact the neurosurgeon on-call at Hospital for the consult.
- Medical Group neurosurgeon at Hospital will determine whether or not the Patient meets criteria for cranial neurosurgical intervention, and is stable for transfer. If the Patient meets such criteria and is stable, SMMC will arrange for the immediate transfer of the patient to Hospital.
- The hospital does not provide Pediatric neurosurgery services. SMMC should refer pediatric cases (under 18 years of age) to sites which provide this care.

In accordance with applicable law, prior to transferring any Patient to Hospital, Agency shall make every reasonable effort to confirm whether a Patient has insurance or other benefits that cover the Services, and shall provide Hospital and Medical Group with such coverage information prior to or at the time Patient is transferred to Hospital, or as soon thereafter as the information becomes available to Agency.

3. Professional Services

Medical Group shall provide the following Professional Services:

The Medical Group neurosurgeon on call at Hospital will make the clinical decision as to whether or not a Patient in the SMMC emergency department requires emergent cranial neurosurgery and should therefore be transferred to Hospital.

Subject to the availability of appropriate medical professionals, including, without limitation, a neurosurgeon, and the availability of Hospital resources, in accordance with Section 4 below, Medical Group will provide emergency cranial neurosurgery services to Patients referred by SMMC in accordance with the terms of this Agreement. Except as otherwise expressly set forth in this Agreement, Medical Group shall not be obligated to provide any services under this Agreement after the point at which a Patient no longer needs the care of a neurosurgeon in an inpatient setting and is stable for transfer, as determined by Medical Group.

Any professional services not listed in this SOW shall be outside the scope of this SOW.

4. Hospital Services

Hospital shall provide the following Hospital Services:

Subject to the availability of Hospital resources, Hospital shall provide all services customarily provided by an inpatient hospital in connection with the provision of emergency cranial neurosurgery services. Except as otherwise expressly set forth in this Agreement, Hospital shall not be obligated to provide any services under this Agreement after the point at which a Patient no longer needs the care of a neurosurgeon in an inpatient setting and is stable for transfer, as determined by Medical Group.

Any hospital services not listed in this SOW shall be considered outside the scope of this SOW.

5. Referral Guidelines

Prior to referral of a Patient for the Medical Services set forth in this SOW, Agency shall ensure that the following have been completed with respect to such Patient:

- The Patient presents to the San Mateo Medical Center (SMMC) emergency department; and, in the opinion of the SMMC emergency department physician, the Patient requires a cranial neurosurgical consult.
- The SMMC emergency department physician will then contact the neurosurgeon on-call at Hospital for the consult.
- Medical Group neurosurgeon at Hospital will determine whether or not the Patient meets criteria for cranial neurosurgical intervention, and is stable for transfer. If the Patient meets such criteria and is stable, SMMC will arrange for the immediate transfer of the patient to Hospital.
- The Hospital does not provide Pediatric neurosurgery services. SMMC should refer pediatric cases (under 18 years of age) to sites which provide this care.

To make the determination of whether or not a Patient requires cranial neurosurgical intervention, the Medical Group neurosurgeon at Hospital will require all relevant imaging studies to be transmitted to Hospital for review. SMMC will transmit these studies via the information technology systems established for this data transfer. The parties understand and agree that the VPN connection that is being used to transmit images from SMMC to Hospital uses the public internet and is outside of the parties' control. VPN connections offer no "Quality of Service" bandwidth guarantee and can only use bandwidth available at time of transmission. The parties agree that backup procedures and protocols shall be in place that call for SMMC to burn images to a CD DICOM format and send pertinent patient information via transport by cab, or courier in the event of network failure. The parties also agree to develop protocols to perform regular tests of the transmissions between the two PACS sites.

If a Patient is a Medi-Cal fee-for-service beneficiary with coverage for the Medical Services, then, in accordance with applicable law and current Agency practice, Agency shall attempt to transfer such Patient to a California Medical Assistance Commission-contracted hospital to receive emergency cranial neurosurgery services prior to sending the Patient to Hospital for such services in accordance with this Agreement.

If the Patient is accepted for transfer to Hospital, SMMC will transport the patient,

as SMMC's expense, to Hospital, together with the following information regarding the Patient (if available):

- List of current medications and allergies
- Past medical history
- Code status
- All relevant imaging studies

6. Discharge Guidelines

SMMC shall be responsible for all discharge planning for Patients. When a Patient no longer requires the care of a neurosurgeon in an inpatient setting and is stable for transfer, as determined by Medical Group, SMMC shall be responsible for determining the appropriate setting for the Patient's further care, determining the facility to which the Patient will be transferred, and arranging for transport to such facility at SMMC's expense. Upon such transfer, subject to applicable law, Hospital shall provide the receiving facility, if any, with all relevant medical records and information related to the cranial neurosurgical care provided to Patient in accordance with Hospital policies and procedures.

In the event that SMMC does not promptly transfer a Patient who is ready for discharge from Hospital in accordance with the preceding paragraph, SMMC shall be responsible for (a) any costs incurred by Hospital or Medical Group with respect to the discharge of such Patient and (b) reimbursement of Hospital and Medical Group, at the applicable Medicare rate, for any hospital or professional services, respectively, provided to such Patient after the Patient is ready for discharge from Hospital in accordance with the preceding paragraph and prior to discharge.

Notwithstanding the foregoing:

- a. Patients will be eligible for one (1) follow up visit with the Medical Group neurosurgeon at Hospital post-discharge from Hospital; and
- b. In the event that a Patient experiences cranial neurosurgical complications following transfer or discharge from Hospital:
 - i. Medical Group, at its sole discretion, may agree to provide consultation regarding the Patient to the medical staff of SMMC or another receiving facility; and/or
 - ii. Medical Group and Hospital, at their sole discretion, may agree to provide follow-up care to the Patient at Hospital; and

- iii. In the event that Medical Group and/or Hospital agree to provide the services described in subsections (i) or (ii) above, then such services will be deemed Medical Services subject to the applicable terms of this Agreement.

7. Agency Referral Report

In addition to the information set forth on Exhibit 2 to the Agreement, Agency shall include the following in each report delivered to Hospital pursuant to Section 2.4 of the Agreement when such report includes referrals under this SOW:

- Number of cases referred to Hospital.
- Number of cranial neurosurgical cases referred elsewhere, including diagnosis and patient age.
- Readmission information on patients transferred from SMMC and discharged from Hospital (3, 7 and 30 days readmission data).
- Cranial surgical site infection data.

SMMC will send this data to Hospital on a monthly basis by the 2nd week of the month for data from the preceding month.

The parties hereby enter into this Statement of Work as of the SOW Effective Date above.
