EXHIBIT A – SERVICES
FAMILY SERVICE AGENCY OF SAN FRANCISCO
FY 2013 – 2014

In consideration of the payments set forth in Exhibit B, Contractor shall provide the following services:

I. DESCRIPTION OF SERVICES TO BE PROVIDED BY CONTRACTOR

A. Prevention and Recovery in Early Psychosis Program (PREP)

1. Introduction

Family Service Agency of San Francisco in collaboration with the University of California in San Francisco implemented their PREP (Prevention and Recovery in Early Psychosis) Program in San Mateo County in 2012. PREP represents a new approach to the treatment of schizophrenia in its early stages, bringing a coordinated series of interventions that represent the cutting edge of treatment science.

2. Overview

Psychosis is a debilitating illness with far-reaching implications for the individual and his/her family. It can affect all aspects of life – education and employment, relationships and social functioning, physical and mental wellbeing. Without adequate care, psychosis can place a heavy burden on client's family and society at large.

The mean age of onset of psychotic symptoms is 22, with the vast majority of first episodes occurring between the ages of 14 and 35. About 1% of the adult population experiences active schizophrenia; this translates into about 5,600 San Mateo County residents. Schizophrenia reduces average life expectancy by 25 years. This makes it one of the nation's most lethal illnesses. It is the seventh leading cause of hospitalization costs in the United States.

At present, the average individual will live with active schizophrenia for two years before symptoms are accurately diagnosed and treatment is begun. Lack of awareness, ambiguous early symptoms and stigma all contribute to the delay in appropriate help being offered and taken up. Early initiation of treatment has been shown to be the single most important positive factor in long-term outcomes.

3. PREP Services Description

PREP services include the following:

a. Public Education

PREP will engage with schools, families, advocacy groups, non-profit organizations and others to educate about schizophrenia and how it can be effectively treated. PREP staff will educate providers, parents, and other professionals on the warning signs for early psychosis and to reinforce the message that recovery is possible with early detection and treatment.

b. Outreach and Engagement

PREP will serve the client and/or family where they are most comfortable receiving services such as PREP offices, homes, schools, or other community settings. PREP employs peer providers (family members and young adults) to reach-out to clients and families to create and sustain connection with the program.

c. Early, Rigorous Diagnosis

The PREP diagnosis and assessment is both rigorous and comprehensive, addressing both the psychotic disorder and other mental health or substance abuse issues the client might have. For clients who have not yet experienced full onset of the disease, Structured Interview for Prodromal Syndromes (SIPS) will be used. For those who have experienced full onset, Structured Clinical Interview for DSM-IV (SCID) will be used. PREP staff undergo a one-year training, testing, and clinical supervision to ensure that these tools are used reliably.

d. Cognitive Behavioral Therapy for Early Psychosis (CBT-EP)

CBT-EP represents the heart of the PREP intervention. Widely available in England and Australia but not in the US, this therapy teaches clients to understand and manage their symptoms, avoid triggers that make symptoms worse and to collaboratively develop a relapse prevention plan.

e. Algorithm-Guided Medication Management

The first goal of PREP medication algorithm is to guide the doctor, the client, and the family toward finding the single best antipsychotic medication, one that can provide symptom control with the fewest side effects. This becomes the medication regimen to which the client is much more likely to adhere over the long-term.

Secondly, the algorithm guides treatment for the additional behavioral health issues that a client is experiencing.

Third, the model emphasizes close coordination between therapist, psychiatrists, clients, and family members. A treatment plan is developed that coordinates medication with psychosocial treatment, that has the agreement of all parties, and that is closely monitored for effectiveness over time. PREP will work with individuals who do not wish to take medications and will offer regular appointments with the psychiatrist for review of symptoms and treatment options. The PREP program does not give antipsychotic medication to individuals who are not yet psychotic although all the other PREP treatments are available to this group.

f. Multifamily Psychoeducation Groups (MFG)

PREP will provide MFG groups for the families of teens and young adults experiencing schizophrenia, and for the families of CHR clients. Even when the primary client chooses not to attend treatment, the family will be served. The MFG groups are designed to increase social support, teach families a problem-solving format to cope effectively with illness-related behaviors, and to provide on-going education about symptoms, medication, community life, work, etc. These groups will be conducted in English and Spanish.

Individual sessions will be offered to all families. These sessions follow a six-module model of psycho-education and communication tips. Sessions will also be available on an “as needed” basis and will provide psychoeducation, crisis management, individual problem solving, and communication facilitation.

g. Computer-based Cognitive Rehabilitation

PREP will use a computer-based cognitive rehabilitation program specifically designed to address the cognitive deficits engendered by schizophrenia. Use of this software will rehabilitate brain function that has been lost to the disease.

h. Education and Employment Support

PREP will work with clients with early schizophrenia to keep them progressing in school and meaningful employment, and to return to school or employment if they have dropped out, using the Individual Treatment and Support (IPS) model of education and employment support.

i. Co-occurring Disorders

PREP will work with clients with co-occurring substance use disorders using a harm-reduction model utilizing motivational interviewing and CBT to provide education about substance use. It will explore the change process and potential triggers in a non-judgmental and collaborative fashion.

j. Treatment and Case Management

PREP will serve the whole person. PREP therapists will work with clients and their families to address depression, substance abuse, family and relationship problems and other things that impinge on the client's growth and development. Case management will draw upon the Transition to Independence Process (TIPS) model which is an evidence-supported model to aid youth to transition into independent adulthood.

4. Target Population for PREP Services

San Mateo County residents who meet the criteria listed below would qualify for PREP services. It is estimated that there will be 80 to 100 qualifying residents.

- a. Are between the ages of 12 and 35 years with first onset of schizophrenia, schizoaffective or schizophreniform disorder within the past two years.
- b. Are aged 12 to 35 years with low-level perceptual changes or unusual thinking that predicts risk of onset of full psychosis (clinical high risk for psychosis syndrome).

The above will be determined through evidence-based assessment tools such as SIPS or SCID. Individuals with the diagnoses listed above who are current substance abuse users will be accepted and cases where individuals have a development disability will be determined on a case-by-case basis.

5. PREP Program Deliverables

a. Remission

Achieve fewer hospitalizations, a remission of psychotic symptoms, and return to normal life of school, work, family, and friends.

- iii. Satisfactory participation in school, vocational training, and/or employment will be above 75% per year.

- i. A medication regimen that provides symptom reduction/remission with a minimum of side effects.
- ii. Knowledge and skill in using cognitive therapy techniques to understand their experiences, reduce associated distress and identify coping strategies.
- iii. Rehabilitation of cognitive processing toward a normal baseline using cognitive training software.

The completed Attachment C shall be returned to the County with the signed Agreement. Based upon the option selected by the Contractor the appropriate following language shall be in effect for this Agreement.

1. Option One

- a. Contractor shall bill all eligible third-party payors financially responsible for a beneficiary's health care services that Contractor provides through this Agreement. Within ten (10) days of the end of each month, Contractor shall provide to County copies of the Explanation of Benefits or other remittance advice for every third-party payment and/or denial of such third-party payments for services provided by Contractor during such month. The amount of any such third-party payment shall be deducted from the total actual costs for all services rendered by Contractor as reflected on the Cost Report as defined in Paragraph R. of this Exhibit B. County accepts no financial responsibility for services provided to beneficiaries where there is a responsible third-party payor, and to the extent that County inadvertently makes payments to Contractor for such services rendered, County shall be entitled to recoup such reimbursement, through the Cost Report reconciliation.
- b. Contractor shall provide a copy of each completed Payor Financial Form (Attachment D) and subsequent annual updates for all clients who receive services through this Agreement. For clients who begin to receive services during the term of this Agreement, completed Payor Financial Forms shall be provided to the County with client registration forms. 2. Option Two

- a. Contractor shall provide information to County so that County may bill applicable other third-parties before billing Medi-Cal for services provided by Contractor through this Agreement. The amount of any such third-party payment shall be deducted from the total actual costs for all services rendered by Contractor as reflected on the Cost Report as defined in Paragraph R. of this Exhibit B. County accepts no financial responsibility for services provided to beneficiaries where there is a responsible third party payor, and to the extent that County inadvertently makes payments to Contractor for such services rendered, County shall be entitled to recoup such reimbursement through the Cost Report reconciliation.
 - b. Contractor shall provide a copy of the completed Payor Financial Form (Attachment D) and subsequent annual updates for all clients who receive services through this agreement. For clients who begin to receive services during the term of this Agreement, completed Payor Financial Forms shall be provided to the County with client registration forms. For clients who were receiving services prior to the start date of this Agreement and who continue to receive services through this Agreement, completed Payor Financial Forms are due within ten (10) days of the end of the first month of the Agreement.
- J. County anticipates the receipt of revenues from various sources to be used to fund services provided by Contractor through this Agreement. Should planned or actual revenues be less than the amounts anticipated at the time of the signing of this Agreement, the maximum payment obligation and/or payment obligations for specific services may be reduced at the discretion of the Chief of the Health System or designee.
- K. If County or Contractor finds that performance is inadequate, at the County's discretion, a meeting may be called to discuss the causes for the performance problem, and this Agreement may be renegotiated, allowed to continue to end of term, or terminated pursuant to Paragraph 4 of this Agreement. Any unspent monies due to performance failure may reduce the following year's agreement, if any.
- L. In the event this Agreement is terminated prior to June 30, 2014, the Contractor shall be paid for services already provided pursuant to this Agreement.
- M. Payments made to Contractor under the terms of this Agreement may be used for Program staff salaries, Program operations, and other direct expenses essential to the Program. No funds paid by County through this Agreement shall be spent for fundraising.

The claim must include the following language and signature line at the bottom of the form(s) and/or cover letter used to report the claim.

Contractor agrees to furnish these records and any information regarding payments claimed for providing the services, on request, within the State of California, to the California Department of Health Care Services; the Medi-Cal Fraud Unit; California Department of Justice; Office of the State Controller; U.S. Department of Health and Human Services, Managed Risk Medical Insurance Board or their duly authorized representatives, and/or the County.

O. Beneficiary Billing

Contractor shall not submit a claim to, demand or otherwise collect reimbursement from, the beneficiary or persons acting on behalf of the beneficiary for any specialty mental health or related administrative services provided under this contract except to collect other health insurance coverage, share of cost and co-payments. The Contractor shall not hold beneficiaries liable for debts in the event that the County becomes insolvent, for costs of covered services for which the State does not pay the County, for costs of covered services for which the State or the County does not pay the Contractor, for costs of covered services provided under this or other contracts, referral or other arrangement rather than from the County, or for payment of subsequent screening and treatment needed to diagnose the specific condition of or stabilize a beneficiary with an emergency psychiatric condition.

Attachment C
Election of Third Party Billing Process

San Mateo County Health System is required to bill all other insurance (including Medicare) before billing Medi-Cal for beneficiaries who have other coverage in addition to Medi-Cal. This is called "serial billing." All claims sent to Medi-Cal without evidence of other insurance having been billed first will be denied.

In order to comply with the serial billing requirement you must elect which of the two following options to use in our contract with you. In either case, you will need to establish the eligibility of your clients through the completion of the standard form (Payor Financial Form) used to collect this information. Please select and complete one of the two options below:

Option One

Our agency will bill other insurance, and provide San Mateo County Behavioral Health and Recovery Services (BHRS) with a copy of the Explanation of Benefits provided by that insurance plan before billing BHRS for the remainder.

We, Family Service Agency of San Francisco, elect option one.

We, Family Service Agency of San Francisco, elect option two.
