Revisions to the General Conditions

This Change Order No. 1 to MSA No. 4400010204 revises the General Conditions of the original MSA as follows:

Adds the following to Section 2.8 – WARRANTY

- 2.8.3 **CORRECTIVE ACTION PLAN:** Except as otherwise provided in this Contract, Consultant shall meet or achieve each milestone for the Work by the applicable milestone date. If PG&E reasonably believes that Consultant is not making substantial progress, or if Consultant fails to achieve a milestone by the applicable milestone date, and such failure is not attributable to reasons entitling Consultant to a Contract Change Order, then Consultant shall provide for PG&E's approval a corrective action plan that will demonstrate achievement of the milestone at the earliest possible date to minimize delay of the Work schedule. Such corrective action plan shall include, without limitation, reasonable evidence of increases in Consultant's work force, increases in the number of shifts, overtime operations, additional days of Work per week, and such other evidence (including milestone schedule analysis) as necessary for the timely completion of the Work. Upon receipt of PG&E's written concurrence, Consultant shall diligently comply with such corrective action plan; provided, however, that PG&E's concurrence shall not affect any of PG&E's rights or Consultant's obligations under this Contract.

Adds the following definition to Section 9.10 "WORK ON PG&E OR PG&E CUSTOMER PROPERTY"

- 9.10 **WORK ON PG&E OR PG&E CUSTOMER PROPERTY:** The following provisions shall apply to the extent that the Work under the Contract requires any Consultant or Subcontractor personnel (collectively, "Personnel") to have access to PG&E assets, premises, customer property, or logical access to PG&E data or systems (collectively, "Access").

Replaces in its entirety, Section 9.10.1 "CRIMINAL BACKGROUND CHECK" of the original MSA General Conditions with the following:

9.10.1 CRIMINAL BACKGROUND CHECKS:

- (i) Contractor warrants and represents that it will not assign any Personnel to work requiring Access unless Contractor has performed a criminal background check on each such individual (either at the time of hiring or during the course of employment). Prior to assigning work requiring Access to any Personnel with one or more criminal convictions during the last seven years, Contractor must consider the gravity of the individual's offense, the time since the conviction, the successful completion of parole/probation, the individual's age at the time of conviction, the number of convictions, and the stability of the individual, including favorable work history. Contractor shall also consider the relation of the offense to the nature of the work the individual will perform.
- (ii) Notwithstanding the foregoing, in no event shall Contractor grant Access to an individual with one or more convictions for a Serious Offense(s), which is defined as violent and sex offenses, crimes against children, domestic violence, fraud, theft (including but not limited

to identity theft), embezzlement, all felonies during the last seven years, and/or two or more DUI's in the past three years.

- (iii) Contractor shall maintain documentation related to its criminal background check investigation for all Personnel requiring Access and make it available to PG&E for audit if requested pursuant to the audit provisions of this Contract.
- (iv) Contractor also agrees to notify PG&E if any of its Personnel requiring Access are charged with or convicted of a Serious Offense during the course of a PG&E assignment.

Replaces in its entirety, Section 9.11 "NERC REQUIREMENTS" of the original MSA General Conditions with the following:

- 9.11 NERC REQUIREMENTS: Pursuant to a directive from the North American Electric Reliability Corporation (NERC), all employees and contractors with unescorted access to facilities and functions that PG&E deems critical to the support of the electricity infrastructure ("Critical Facilities") shall undergo employment background screening and training prior to being granted access to these PG&E facilities. To the extent applicable to the Work, Contractor shall comply with the requirements of Exhibit 7, NERC Requirements, attached hereto and incorporated herein

Removes Exhibit E "Background Check" of the Original MSA;

Adds Exhibit 7 "NERC REQUIREMENTS"; and

Exhibit 7A "PG&E NERC CIP Non-Employee Attestation Form" attached hereto.

There are no other changes to this MSA.

Exhibit 7

NERC REQUIREMENTS

Pursuant to a directive from the North American Electric Reliability Corporation (NERC), all employees and contractors with unescorted access to facilities, systems and functions that PG&E deems critical to the support of the Bulk Electric System ("Critical Facilities and/or Critical Systems") shall undergo employment background screening and training prior to being granted access to these PG&E facilities and/or systems. Contractor hereby agrees to perform background checks ("Personnel Risk Assessments" or "PRA's") on all Contractor and Subcontractor personnel ("Individuals") with unescorted access. PG&E has included in the category of those with unescorted access all Individuals working within PG&E Critical Facilities and/or Critical Systems. Contractor shall perform the following background check and comply with the following provisions for any Work subject to the NERC requirements for unescorted access. The background check can have no findings for any of the criteria (i.e., an acceptable background check):

Contractor shall perform a background screening for each Individual that includes each of the following criteria: (i) Social Security Number verification; (ii) City, County, State and Federal Criminal Check for felonies and misdemeanors over the past seven years (in up to three counties where the Individual has lived in the past seven years); (iii) "Global Watch" (check of 19 Federal and International Terrorist Watch lists); (iv) validation of current residence and confirmation of continuous residence at this site for a minimum of the most recent 6 months (confirmed by period of residence, employment, or education at a specific site) and validation of other locations where, during the seven years immediately prior to the date of the criminal check specified in (ii) above, the Individual has resided for six consecutive months or more.

1. After performing an acceptable background check for each Individual with unescorted access, the Contractor shall provide PG&E's Human Resources Department with a Personnel Risk Assessment Attestation Form in the form attached hereto as Exhibit 8A for each Individual on assignment to PG&E prior to the Individual being granted unescorted access. PG&E may request that Contractor provide a copy of complete Personnel Risk Assessment ("PRA") results at the time the Personnel Risk Attestation Form is submitted.
2. Contractor shall require that each Individual with unescorted access complete an initial training and annual PG&E web-based training session on safety, information security, compliance with PG&E codes and procedures including but not limited to CORP-0804 Cyber and Physical Security Awareness training. Contractor shall direct that each Individual complete the PG&E training program by CD or by hard copy format, if Contractor informs PG&E that web based training is not feasible.
3. After Contractor certifies to PG&E completion of the requirements set forth in paragraphs 1-3 above, PG&E will issue each Individual a keycard to access the designated PG&E facility to which they are assigned and/or logical access to the designated Critical System to which they are assigned. PG&E will deny access to Critical Facilities and/or Critical Systems to any Individual for whom Contractor has not certified completion of the requirements set forth in paragraphs 1-3 above.
4. Every seven years, Contractor shall perform NERC background screening as described herein for each Individual on continuing assignment to work at PG&E Critical Facilities and/or Critical Systems.
5. Contractor shall retain documentation supporting the Personnel Risk Assessment Attestation Form for each Individual assigned to PG&E Critical Facilities and/or Critical Systems for a minimum of seven years.
6. PG&E will audit Contractor's background screening methodology and substantiate the accuracy of Personnel Risk Assessment Attestation Forms for each Individual. Contractor shall respond to any auditing requests and activities, including but not limited to data requests, within one business day. PG&E and/or WECC will set the frequency of auditing the Contractor's PRA process and supporting records.
7. In addition to its other indemnity obligations hereunder, Contractor shall indemnify and hold harmless PG&E for any penalties assessed against PG&E (including but not limited to penalties assessed against PG&E by the Western Electricity Coordinating Council (WECC), NERC or the Federal Energy Regulatory Commission (FERC) for a violation of any NERC reliability standard) caused by Contractor's failure to perform its obligations under this Contract.

7.6.3. PG&E may inspect the original policies or require complete certified copies at any time.

7.6.4 The minimum liability insurance requirements established in this Contract are not a representation by PG&E that the insurance limits are sufficient, nor do these requirements in any way limit Contractor's liability under this Contract.

7.6.5 Upon request, Contractor shall furnish PG&E the same evidence of insurance for its Subcontractors as PG&E requires of Contractor.

C. The following Sections 8.2 – 8.2.4 Cancellation For Cause under Section 8.0 Force Majeure, Cancellation and Termination of Contract shall be deleted in their entirety and replaced with:

NERC REQUIREMENTS

I. Applicability to Bulk Electric System Cyber Systems and Information

Pursuant to a directive from the North American Electric Reliability Corporation ("**NERC**"), PG&E has implemented policies and procedures for the protection of facilities, systems, assets and information that are critical to the operation or support of the Bulk Electric System ("**BES**"). PG&E identifies these facilities, systems, assets and information in accordance with its internal utility procedures.

If this Contract relates to BES Cyber Systems or BCSI (as designated by PG&E), then Contractor must comply with the additional requirements described in this Exhibit 7. Contractor represents and warrants that it has consulted with PG&E to determine whether Exhibit 7 is applicable.

II. Definitions

The following terms are defined for use in this Exhibit:

"**Access**" means:

- 1) Unescorted access by any person to facilities, systems and functions that PG&E deems critical to the support of the Bulk Electric System ("**Critical Facilities and/or Critical Systems**"), including persons working within PG&E Critical Facilities and/or Critical Systems; and
- 2) Physical or electronic access by any person to BCSI, or administrative control over BCSI or systems containing BCSI. For the avoidance of doubt, disclosing BCSI to a person by any means constitutes Access to such information by that person.

"**BCSI**" means Bulk Electric System Cyber System Information in any form (whether printed or electronic) including data, files, and file attributes. BCSI is information about a BES Cyber System that could be used to gain unauthorized access or pose a security threat to the BES Cyber System, as determined by PG&E. BCSI is typically classified by PG&E as "NERC CIP Confidential – BCSI" or "Restricted – BCSI," but not all BCSI data will be designated as such in all formats.

"**BES**" means Bulk Electric System.

"**PRA**" means Personal Risk Assessment.

"**NERC**" means North American Electric Reliability Corporation.

"**WECC**" means Western Electricity Coordinating Council.

III. NERC CIP Security Obligations

- A. Contractor shall comply with all cyber security policies, plans and procedures relating to the BES Cyber Systems and/or BCSI as directed by PG&E. As directed by PG&E, Contractor shall provide documentation and evidence demonstrating such compliance. This may include the conduct of periodic tests and audits as specified by PG&E from time to time. Contractor acknowledges that Contractor's failure to comply and demonstrate compliance may subject Contractor and/or PG&E to fines and other sanctions.
- B. Before being granted Access, Contractor must satisfactorily complete PG&E's Vendor Security Review process. If Work is to be performed at Contractor locations, those locations must be approved by PG&E following completion of the Vendor Security Review Process. PG&E's approval does not limit its rights to conduct periodic audits and reviews as provided in the Contract.
- C. Contractor shall ensure that (i) any BCSI that is obtained by Contractor is stored and Accessed only within the United States, (ii) BCSI is not copied, exported, transferred or otherwise transmitted outside the United States, and (iii) no third party (including without limitation any

individual, corporation, government or governmental agency), system or environment located outside the United States obtains Access to BCSI through Contractor. Without limiting any other term of this Contract, a third party, system, or environment will be deemed to have Access to BCSI if Contractor shares BCSI with such third party, system, or environment in any manner, or if such third party uses access tokens, cards, credentials, or other means of authentication furnished to Contractor by PG&E to obtain, view, download, or copy BCSI.

- D. Contractor shall ensure that any personnel requiring Access successfully complete background checks ("**Personnel Risk Assessments**" or "**PRAs**") and PG&E-mandated security training before they obtain Access, in accordance with the following requirements:
- 1) Contractor shall perform a background screening for each individual that includes each of the following criteria: (i) Social Security Number verification; (ii) City, County, State and Federal Criminal Check for felonies and misdemeanors over the past seven years (in up to three counties where the individual has lived in the past seven years); (iii) "Global Watch" (check of 19 Federal and International Terrorist Watch lists); and (iv) validation of current residence and confirmation of continuous residence at this site for a minimum of the most recent 6 months (confirmed by period of residence, employment, or education at a specific site) and validation of other locations where, during the seven years immediately prior to the date of the criminal check specified in 4a(ii) above, the individual has resided for six consecutive months or more.
 - 2) After performing an acceptable background check, the Contractor shall provide PG&E's Human Resources Department with a Personnel Risk Assessment Attestation Form in the form attached hereto as **Exhibit 7A** for the individual prior to the individual being granted Access. PG&E may request that Contractor provide a copy of the complete Personnel Risk Assessment results at the time the PRA Form is submitted.
 - 3) Contractor shall require that each individual complete an initial training and annual PG&E web-based training session on safety, information security, compliance with PG&E codes and procedures, including but not limited to CORP-0804 Cyber and Physical Security Awareness training (or alternative training as designated by PG&E). Contractor shall direct that each individual complete the PG&E training program by CD or by hard copy format, if Contractor informs PG&E that web based training is not feasible.
 - 4) After Contractor certifies to PG&E completion of the requirements set forth in paragraphs a. through c. above, PG&E will issue appropriate Access credentials. PG&E will deny Access to any individual for whom Contractor has not certified completion of the requirements set forth in paragraphs D(1) through (3) above.
 - 5) Every seven years, Contractor shall perform background screening as described herein for each individual on continuing assignment who has Access.
 - 6) Contractor shall retain documentation supporting the Personnel Risk Assessment Attestation Form for each individual with Access for a minimum of seven years.
 - 7) PG&E may audit Contractor's background screening methodology and substantiate the accuracy of Personnel Risk Assessment Attestation Forms for each individual. Contractor shall respond to any auditing requests and activities, including but not limited to data requests, within one business day. PG&E and/or WECC will set the frequency of auditing the Contractor's PRA process and supporting records.
- E. In addition to its other indemnity obligations hereunder, Contractor shall indemnify and hold harmless PG&E for any fines, penalties or other sanctions assessed against PG&E (including but not limited to fines, penalties or sanctions assessed against PG&E by the WECC, NERC, or the Federal Energy Regulatory Commission (FERC) for a violation of any NERC reliability standard) caused by Contractor's failure to perform its obligations under this Contract.

Attachment 5**Program Management Plan Requirements****Introduction: Objectives and Major Components of the Program****Program Overview**

Resource Program: The San Mateo County Energy Watch Program will primarily service municipalities, K-12 public schools, and small and micro businesses. However, as in past years, SMCEW will continue to serve as a conduit between all ratepayers in San Mateo County and programs available to them, via PG&E programs or other (re)sources.

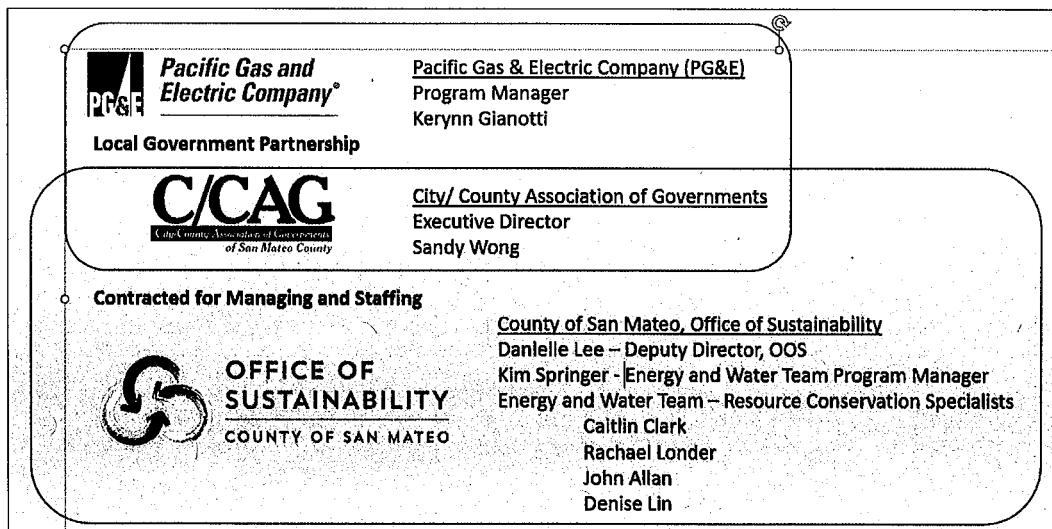

SMCEW will work with each of the customer segments listed above to identify energy-saving opportunities and partner with PG&E for engineering, Trade Professional Alliance members, and CLEAResult, and coordinate with Ecology Action and PG&E on activities in San Mateo County.

Non-Resource Program: The San Mateo County Energy Watch program will continue to provide climate action planning technical support to C/CAG, the cities, and the County. Lead Local Government Partner, C/CAG, continues to provide annual matching funding to broaden both climate action plan and greenhouse gas emission scoping beyond energy activities.

Staff**Team Org Chart - departments, subcontractors, and reporting structure**

The San Mateo County Energy Watch program is a Local Government Partnership between Lead Local Government Partner, City/ County Association of Governments of San Mateo County (C/CAG), and PG&E. The C/CAG Executive Director received regular updates on the progress of the Program.

C/CAG contracts with County of San Mateo Office of Sustainability for management and staffing of the program through a staff services agreement between the parties. In addition to C/CAG staff oversight of the program, the staff services agreement states that the County will report to the C/CAG Board and other committees upon request of C/CAG. One committee, the Resource Management and Climate Protection Committee meets monthly, and receives updates and provides feedback to Program staff.

Coordination Efforts with other PG&E programs

The San Mateo County Energy Watch Program will continue to coordinate with PG&E, 3rd Party, and other programs operating in San Mateo County. This include programs for all sectors of ratepayers, by either directing ratepayers to resources or making the introduction to specific programs.

For instance, the Program intends to leverage PG&E Trade Professional Alliance members for the small- and micro-business program. Another example is the On-Bill financing program, which is available to most all customers, with some limitations. Program staff will make ratepayers aware of these and other options.

The Program will also continue to deliver marketing and outreach to ratepayers in San Mateo County, through the SMCEW website, newsletters, and social media.
