County reserves the right to withhold payment if County determines that the quantity or quality of the work performed is unacceptable. The duty of Contractor to indemnify and save harmless as set forth by this Section shall include the duty to defend as set forth in Section 2778 of the California Civil Code.

# **EXHIBIT A - CODY SOFTWARE MISCELLANEOUS TERMS**

For purposes of this agreement, County may be alternatively referred to as "Licensee." All CODY Software and Services in this Agreement are covered by the terms and conditions concerning CODY Systems in the pre-existing agreement entered into on March 18, 2019 - County Agreement No. Resolution No. 076544.

# 1. DESCRIPTION OF SERVICES TO BE PERFORMED BY CONTRACTOR

- A) \*EXPANSION DEPLOYMENT: Contractor will enable an expansion of the currently licensed SAS Integrated Edition COBRA.net system already in place at the Licensee's location. The deployment of such an expansion entails enabling the full standard set of features and functionality available in the Standard, non-integrated/embedded edition of COBRA.net. Unlike the integrated/embedded edition which does not support or allow for the further addition of plug-ins and the COBRA.net Core API, the full Standard Edition supports the addition of add-on modules such as configured plug-ins as well as the COBRA.net Core API. The Standard Edition also enables the capability to add on the C.tac Search App. This project includes:
  - 1.) CODY's standard remote Core and EXB installation services.
  - 2.) Up to Five (5) days of on-site implementation days for CODY's project lead to be on-site at the NCRIC location for business / project planning, work-flow analysis and any other project-related activities.
- B) SAML-based authentication As part of the deployment of C.tac for Licensee, CODY will configure COBRA.net to communicate and authenticate users with the SAML-based identity provider in place currently at the NCRIC, for the purposes of streamlining user authentication. Licensee acknowledges and understands that CODY has not integrated with the specific identity provider in place at the NCRIC and will make every practicable effort to complete such integration. However, aspects of such integration are beyond CODY's control, such as any necessary input and support from the identity provider's software provider, Licensee, and any other third party. As such, while CODY has every confidence that we will be able to interact with NCRIC's identity provider, CODY cannot guarantee that such integration will ultimately be possible.
- C) N-DEx Plug-in The 4-year ASL subscription will include a license of the COBRA.net N-DEx Incident-Arrest (IA) Data Submission Plug- in. The current scope of data supported by the plug-in is the N-DEx IA IEPD. However, CODY's development roadmap currently includes expanding the data scope to include incarceration/booking data as available in the Domain Data Scope in place for given Data Sources. When this expansion becomes available, Licensee will receive access to this feature as part of the 4-year ASL at no additional license fee
- D) Access to the COBRA.net Core API for NCRIC internal technical personnel only, for the sole purpose of accessing and/or exporting COBRA.net Core data. This license does not contemplate or allow any third party to use the API or gain access to the COBRA.net data directly or indirectly.
- E) Training: all training included is on-line, remote web-based training. No on-site training is included but can be contracted separately as needed.
