Discussion:

The applicant submitted a Parking Restriction Request application and signed petition to restrict parking on Alameda de las Pulgas, to allow for sight distance for vehicles exiting Prospect Street.

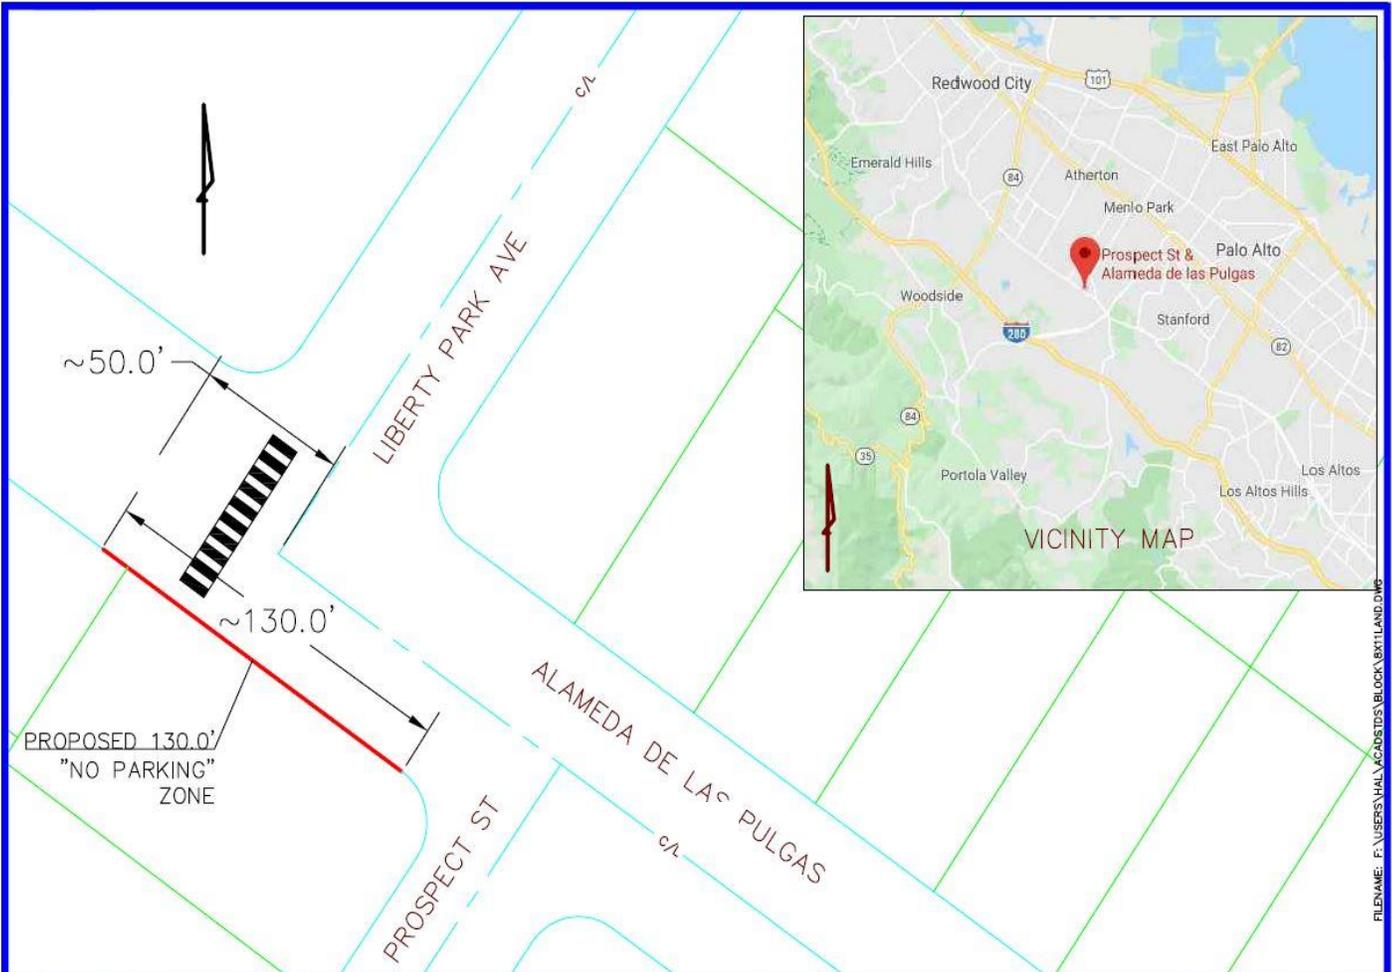

Key Facts:

- The applicant circulated a petition in support of restricting parking on Alameda de las Pulgas at Prospect Street and included it with the Parking Restriction Request. Nineteen signatures were received with the original submittal.
- Additional support in favor of the proposal was not received through the Property Owner Notification outreach process.
- Six objections were received. Three were received from property owners within a three hundred foot radius of the project area. Two objections were from outside the contacted area. One objection was from an anonymous respondent.
- Bushes and trees were trimmed back on the north property line at 2100 Prospect Street in attempt to re-establish sight distance looking northwesterly on Alameda de las Pulgas. Sight distance was improved briefly, however, the applicant would like to continue moving forward with restricting parking on Alameda de las Pulgas as a long term permanent solution.

Staff Recommendations:

Establish a “No Parking” zone as shown on the attached map.
