

## Attachment "A"

Adopt a resolution authorizing the establishment of a "No Trailer Parking Zone" on Huntington Avenue from Pacific Avenue to Beresford Avenue in North Fair Oaks.

Bob

### Discussion:

- The proposal calls to restrict the parking of trailers on Huntington Avenue, from Pacific Avenue to Berkshire Avenue, a length of eight hundred ninety (890.0') feet.
- This is designed to preserve parking for neighborhood residents, as well as provide adequate sight distance for vehicles entering the street from intersections and driveways.

### Public Input Summary:

Street / Location	Area	Objections	Support
Huntington Avenue	North Fair Oaks	1	2

### Summarized Public Comments:

- "...Some people are taking advantage and crowding the street with multiple trailers and large mobile home trailers, leaving others to struggle for vehicle parking.
- "...Suggest speed bumps" as well

### Objecting Comment:

- "The parking problem in this area is not trailers it is property owners renting out ever room in there house to someone with a car. Also they are living 2 or 3 families in a 2 bedroom apartment or 2 bedroom house. It is over populated by this and you do nothing about it. I am totally against this new law as there are to many people in the area such as have trailers for work, land scarpers, Gardeners, construction people etc."
