

County of San Mateo

Inter-Departmental Correspondence

Department: PUBLIC WORKS

File #: 19-367

Board Meeting Date: 4/23/2019

Special Notice / Hearing: None
Vote Required: Majority

To: Honorable Board of Supervisors

From: James C. Porter, Director of Public Works

Subject: County-wide Mitigation Fees for County Public Road Reconstruction and Adjustment of Fees for Calendar Year 2019

RECOMMENDATION:

Adopt a resolution:

- A) Accepting the summary report on countywide mitigation fees through December 31, 2018; and
- B) Authorizing an increase of 0.8 percent on building permits and subdivision applications for new residential, commercial, and industrial developments for calendar year 2019, computed on the base rates specified in Section 2.53.030 of the San Mateo County Ordinance, as adjusted in 2018.

BACKGROUND:

Your Board instituted mitigation fees in 1991 as a means of having developers of property contribute funds to construct and reconstruct County roads and drainage facilities that are impacted by their development. The enabling legislation, California Government Code Sections 66484, et seq., requires that funds be used in the same areas (zones) where funds are collected. The Ordinance adopted by your Board in 1990 (No. 3277), which established mitigation fees, also established the various zones in the County, and:

- 1. Requires that a report on the status of the mitigation fees by zone be prepared each year; and
- 2. Allows for adjustments in the mitigation fees based on the change in the Construction Cost Index as published by the Engineering News Record.

DISCUSSION:

The fees as established use the residential fee as the base. Commercial and industrial fees are calculated as multiples of the residential fee, based on the type of use of the property, with the exception of the Commercial - Self Storage fee, which was established in 1999. The Ordinance

provides for adjusting the mitigation fee based on the percentage change in the Engineering News Record Construction Cost Index for the San Francisco area as of January 1st for the preceding 12 months. As of January 2019, the Construction Cost Index has increased by 95 percent since the inception of the fees in 1991. From January 2018 to December 2018, the Construction Cost Index increased by 0.8 percent. The Department of Public Works (Department), therefore, recommends the base residential fee be increased by 0.8 percent to \$2.08 per square foot of assessable space, and the Commercial - Self Storage fee be increased to \$1.63 per square foot of assessable space. The following is a summary of recommended fees:

Type	Initial Fee	2018 Fee	Proposed 2019 Fee	Percentage Increase 2018-2019
Residential	\$1.00	\$2.06	\$2.08	0.8%
Industrial	\$1.00	\$2.06	\$2.08	0.8%
Commercial - Self Storage	\$0.80	\$1.62	\$1.63	0.8%
Commercial- Lodging	\$1.00	\$2.06	\$2.08	0.8%
Commercial- Rental	\$2.00	\$4.09	\$4.12	0.8%
Commercial- Office	\$2.00	\$4.09	\$4.12	0.8%

A summary of countywide Road Mitigation fees collected, together with interest, over the last thirteen years from January 2005 to December 2018, from the seven areas of benefit are included as Attachment A. Attachment B describes each of the seven areas of benefit.

County Counsel has reviewed and approved the resolution as to form.

Approval of this action contributes to the Shared Vision 2025 outcome of a Livable Community by collecting mitigation fees to support funding for the reconstruction of roads and drainage facilities that are a benefit to residents and the community.

FISCAL IMPACT:

The County anticipates receiving approximately \$510,000 in total mitigation fee revenue in 2019.

Specific projects will be recommended for funding with Mitigation fee revenue through the normal budget process. There is no impact to the General Fund.
