Department: HEALTH

File #: 21-445

Board Meeting Date: 6/8/2021

Special Notice / Hearing: None
Vote Required: Majority

To: Honorable Board of Supervisors

From: Louise F. Rogers, Chief, San Mateo County Health
Scott Gilman, Director, Behavioral Health and Recovery Services

Subject: Amendment to the Agreement with Resource Development Associates for Evaluation and Technical Assistance Services

RECOMMENDATION:

Adopt a resolution authorizing an amendment to the agreement with Resource Development Associates for data planning and technical assistance services increasing the amount by \$30,000 to an amount not to exceed \$605,860 with no change to the term.

BACKGROUND:

On September 22, 2016, Behavioral Health and Recovery Services (BHRS) contracted with Resource Development Associates (RDA) to provide evaluation and assessment services, as well as technical assistance, to Mental Health Services Act (MHSA) Innovation (INN) Component pilot programs, in the amount of \$100,000, for the term September 22, 2016 through June 30, 2018. MHSA INN regulations require counties to evaluate the effectiveness of the projects.

On May 22, 2018, your Board approved an amendment to the agreement with RDA to extend the term through June 30, 2019, increasing the amount by \$95,860 to an amount not to exceed \$195,860.

On May 2, 2019, the Chief of San Mateo County Health approved a second amendment to the agreement with RDA to allow for completion of the evaluation services and extended the term through December 31, 2019, increasing the amount by \$25,000 to an amount not to exceed \$220,860.

On February 28, 2019, BHRS released a Request for Proposals (RFP) for Evaluation and Technical Assistance Services. RDA responded and was selected to continue providing evaluation and technical assistance services for MHSA.

On September 24, 2019, your Board approved a third amendment to the agreement with RDA to continue providing evaluation services of the MHSA INN pilot programs, extend the term through June 30, 2022, and increase the amount by \$290,000, to an amount not to exceed \$510,860.

On May 5, 2020, your Board approved a fourth amendment to the agreement with RDA to provide BHRS Workforce Education and Training three-year planning technical assistance services and increase the amount by \$35,000 to an amount not to exceed \$545,860 with no change to the term of the agreement.

On January 12, 2021, your Board approved a fifth amendment to the agreement with RDA to provide data capacity and evaluation technical assistance services for the Coastside Multi-Cultural Wellness Program and increased the amount by \$30,000 to an amount not to exceed \$575,860 with no change to the term of the agreement.

DISCUSSION:

BHRS is requesting to amend the agreement with RDA, increasing the maximum by \$30,000 to an amount not to exceed \$605,860, with no extension to the term of the agreement, to add MHSA Prevention and Early Intervention (PEI) data planning and technical assistance services for nine (9) PEI programs.

MHSA legislation requires ongoing evaluation and reporting of all MHSA funded programs, which also supports funding continuation decisions. PEI guidelines further require outcome data that indicate a decrease in negative outcomes for untreated mental illness and referrals that lead to engagement with mental health services. BHRS has developed a database linked to our current electronic healthcare records that will provide indicators for timeliness of engagement for PEI clients referred to services. RDA will support the review and selection of appropriate tools and indicators for nine (9) PEI programs that collect individual client data.

Since FY 2016-17, RDA has provided program planning services that led to successful MHSA PEI, direct treatment, and workforce training projects. RDA has developed annual evaluation reports for all MHSA Innovation projects including the San Mateo County Pride Center, the Health Ambassador Program for Youth, and the Neurosequential Model of Therapeutics (NMT) in an Adult System of Care. The reports are shared annually with MHSA stakeholders, submitted to the State Department of Health Care Services and the Mental Health Services Oversight Commission, and have supported successful innovation extension requests and sustainability planning.

The resolution contains the County's standard provision allowing amendment of the County's fiscal obligations by a maximum of \$25,000 (in aggregate).

The County's Contract Compliance Committee has approved a more than 3-year waiver request for this agreement.

It is anticipated that 100% of the MHSA evaluation, reporting and planning requirements will be completed by RDA.

PERFORMANCE MEASURE:

Measure	FY 2020-21 Estimated	FY 2021-22 Projected
---------	----------------------	----------------------

Percentage of the MHSA evaluation, reporting, and planning requirements that will be completed by RDA	100% 10 items	100% 10 items
---	---------------	---------------

FISCAL IMPACT:

The term of the amended agreement is September 15, 2016 through June 30, 2022. The amount of the contract is not to exceed \$605,860. This amendment increases the contract amount by \$30,000. Of the increase, \$30,000 is included in the BHRS FY 2020-21 Adopted Budget. One hundred percent of the increase will be funded by MHSA.
